im not impressed with the concept or the food  
in my house i was getting dropped coverage upstairs and no coverage in my basement

raw and sublimely moving  
service was fantastic  
thank you for wasting my money  
sorry i will not be getting food from here anytime soon  
i love this phone it is very handy and has a lot of features  
not easy to watch  
and it was way to expensive  
plus its only bucks  
and i just love the colors  
logitech bluetooth headset is a  
we had at our table and the service was pretty fast  
the look of it is very sharp and the screen is nice and clear with great graphics  
unfortunately it will not recharge my iphone s despite connecting it from multiple power  
sources imac external battery wall outlet etc  
our server was very nice and attentive as were the other serving staff  
what happened next was prettyoff putting  
everything about this movie is stupid  
the cast was great  
makes it easier to keep up with my bluetooth when im not wearing it  
very funny  
the classic maine lobster roll was fantastic  
good audio quality  
i like the fact that it rests lightly against your ear rather than inside  
sadly gordon ramseys steak is a place we shall sharply avoid during our next trip to veg  
as  
a great film by a great director  
i miss it and wish they had one in philadelphia  
dont do it  
it is a film about nothing just a pretext to show ridiculous action scenes  
food was good service was good prices were good  
what a piece of junk i lose more calls on this phone  
i hate writing bad reviews about films especially those in which i really like the star  
but this film is so bad i dont believe for one second that anyone could have been prou  
d of it  
i agree with jessica this movie is pretty bad  
when it opens the battery connection is broken and the device is turned off  
excellent product  
the service was a little slow considering that were served by people servers so the fo  
od was coming in a slow pace  
it isnt even an achievement as a sobaditsgood or sobaditsmemorable movie  
seller shipped quickly and much cheaper than the competitors  
the keyboard is a nice compromise between a full qwerty and the basic cell phone number  
keypad  
also if your phone is dropped this case is not going to save it specially when dropped f  
ace down  
all in all an excellent restaurant highlighted by great service a unique menu and a beau  
tiful setting  
fantastic buy and will get again for whatever my next phone is  
we had so much to say about the place before we walked in that he expected it to be amaz  
ing but was quickly disappointed  
if the food isnt bad enough for you then enjoy dealing with the worlds worstannoying dru  
nk people  
after trying many many handsfree gadgets this is the one that finally works well  
very disappointing  
editing the editing of this film was phenomenal in my opinion  
everything was perfect the night we were in  
the case is great and works fine with the  
all the pretty pictures in the world cannot make up for a piece of work that is flawed a  
t the core  
a piece of junk that broke after being on my phone for days  
the lighting is just dark enough to set the mood  
waste of money  
is it possible for a movie to get any worse than this  
theres barely a boring moment in the film and there are plenty of humorous parts  
excellent sound quality  
i gave it stars because of the sound quality

both of the egg rolls were fantastic  
but i definitely would not eat here again  
after a year the battery went completely dead on my headset  
the interplay between martin and emilio contains the same wonderful chemistry we saw in  
wall street with martin and charlie  
total brunch fail  
the scenes with the ohsomature neighbourgirl are a misplace  
he is almost unbearable to watch on screen he has little to no charisma and terrible com  
edic timing  
there are so many problems i dont know where to start  
nice leather  
it seems completely secure both holding on to my belt and keeping the iphone inside  
great food and service huge portions and they give a military discount  
it has all the features i want  
the picture resolution is far below what other comparablypriced phones are offering toda  
y  
they are so easy to love but even more easy to identify with  
this place is like chipotle but better  
the movie was very interesting from beginning to the end  
in fact im going to round up to stars just because she was so awesome  
better than expected  
but tiny toons kept the s vibe and delivered one of the most popular funny and underrate

juano hernandez an exceptional actor who played supporting roles in many films of the er  
a is a proud black man who is accused of murdering a white man in the south  
the jerky camera movements were also annoying  
so i am here to warn youdo not rent this movie it is the dumbest thing you have never se  
en  
at first i thought i was grtting a good deal at until i plugged it into my phone vc raz  
r  
ive had this for nearly years and it has worked great for me  
whatever the producer was going for he missed entirely  
i thought errol flynn was brilliant as custer and has since become my favourite actor  
it never condescends all the characters have good genuine hearts and believable problems

comfortable in my hand  
i would advise to not purchase this item it never worked very well  
the scenes are often funny and occasionally touching as the characters evaluate their li  
ves and where they are going  
the sweet potato fries were very good and seasoned well  
i exchanged the sony ericson za for this and im pretty happy with that decision  
very good stuff for the price  
the foreigner is not worth one second of your time  
the phone loads super  
well never go again  
bad day or not i have a very low tolerance for rude customer service people it is your j  
ob to be nice and polite wash dishes otherwise  
however after seeing the short again after about years i was amazed at how timeless the  
film actually is  
car charger as well as ac charger are included to make sure you never run out of juicehi  
ghy recommended  
only like or buildings used a couple of locations maybe poor hummh  
you learn a lot about the real inside emotions of people in this movie and a lot about t  
he movie business itself  
its a gloriously fun fast paced and fairly accurate portrayal of the night of a raver  
the volume switch rocketed out of the unit to a destination unknown  
however bt headsets are currently not good for real time games like firstperson shooters  
since the audio delay messes me up  
wow what a bad film  
i dont think i will be back for a very long time  
do not buy do not buyit sucks  
i had strawberry tea which was good  
very very sad  
all in all a great disappointment  
it was that loudglad to say that the plantronics maintains a flawless connection to my  
cell and with no static during normal use

generous portions and great taste  
this movie is excellent angel is beautiful and scamp is adorable his little yelps when he's scared and the funniest parts are when scamp is caught under the curtain and when angel and scamp are singing i've never had this feeling before i totally recommend this movie it's coming out on special edition on june the cover has scamp on a garbage can and angel underneath the lid  
it is wonderful and inspiring to watch and i hope that it gets released again on to video or dvd  
one more thing i can tolerate political incorrectness very well i'm all for artistic freedom and suspension of disbelief but the slavish female character was just too much not what i wanted  
judith light is one of my favorite actresses and i think she does a superb job in this film  
stay away from this store be careful  
i'd like to return it  
the acting helps the writing along very well maybe the idiot savant sister could have been played better and it is a real joy to watch  
the price is reasonable and the service is great  
i would recommend saving room for this  
paying for a hot dog and fries that looks like it came out of a kid's meal at the wiener schnitzel is not my idea of a good meal  
i connected my wife's bluetooth motorola h's to my phone and it worked like a charm whether the phone was in my pocket or the case  
i paid too much  
i definitely recommend  
unreliable i'm giving up  
worst customer service  
i would not recommend this place  
also the music by mark snow is possibly the best score i've ever heard  
as a courtroom drama it's compelling as an indictment on the american justice system it's frightening  
works like a charm works as advertised  
saw the movie today and thought it was a good effort good messages for kids  
cinematography the film was shot in an interesting way  
her role was played well  
after all the rave reviews i couldn't wait to eat here what a disappointment  
i have bars on my cell phone when i am home but you can't not hear anything  
not only did the software do a great job of this i could also make my own ringtones from my existing cds without an internet connection  
it also had a new problem  
the burger i got the gold standard a burger and was kind of disappointed  
we've tried to like this place but after times i think were done with them  
last night was my second time dining here and i was so happy i decided to go back  
the film gives meaning to the phrase never in the history of human conflict has so much been owed by so many to so few  
the film has an ultracheap look to it  
trumbull on i love lucy  
it's a long time since i was so entertained by a movie  
he was extremely rude and really there are so many other restaurants i would love to dine at during a weekend in vegas  
gets the job done  
despite the pans of reviewers i liked this movie  
this is one of the best italian thrillers of the early s  
the only good thing was our waiter he was very helpful and kept the bloody marys coming  
i heart this place  
after arguing with verizon regarding the dropped calls we returned the phones after two days  
the burger is good beef cooked just right  
i've never been more insulted or felt disrespected  
they have been around for years and carries the highest quality of antiglare screen protector that i have found to date  
the place was not clean and the food oh so stale  
yeah the movie pretty much sucked  
does not work for listening to music with the cingular  
we were promptly greeted and seated  
ripoff over charge shipping

item arrived quickly and works great with my metro pcs samsung schr slider phone and so  
ny premium sound in ear plugs  
the entire audience applauded at the conclusion of the film  
our waiter was very attentive friendly and informative  
god and i can never get that minutes back  
reception is terrible and full of static  
i never walked out of a movie faster  
its very slow  
setup couldnt have been simpler  
saggy floppy piece of junk  
the internet access was fine it the rare instance that it worked  
today was my first taste of a bulldogis gourmet hot dog and i have to tell you it was mor  
e than i ever thought possible  
bland and flavorless is a good way of describing the barely tepid meat  
the acting by the whole cast could be put on a scale and balanced perfectly between over  
acting and underacting  
after one bite i was hooked  
crostini that came with the salad was stale  
after watching this film i wanted to learn more about the works of this artist  
awesome service and food  
if you have several dozen or several hundred contacts then imagine the fun of sending ea  
ch of them one by one  
each day of the week they have a different deal and its all so delicious  
once you get inside youll be impressed with the place  
its practically perfect in all of them a true masterpiece in a sea of faux masterpieces

good quality  
the worst phone ive ever had only had it for a few months  
i live in the neighborhood so i am disappointed i wont be back here because it is a conv  
enient location  
the point is the journey a journey that touches every member of the family  
it just blew  
love it great armband  
i dont think there are any redeeming qualities in this remake  
the last minutes of movie are also not bad as well  
tried to go here for lunch and it was a madhouse  
funny clever hip just like prays previous film hype  
the show would begin with smart ass ed comments to each other that would be totally off  
the wall and uncalled for  
it feels poorly constructed the menus are difficult to navigate and the buttons are so r  
ecessed that it is difficult to push them  
it lasts less than o minutes if i actually try to use the phonemy wife has the same phon  
e with the same problem  
lobster bisque bussell sprouts risotto filet all needed salt and pepperand of course the  
re is none at the tables  
the earpiece on this is too large or too heavyit keeps falling out of my ear  
i great reception all the time  
lately they have been extremely nice and helpful on the phone  
i advise everyone do not be fooled  
unfortunately the ability to actually know you are receiving a call is a rather importan  
t feature and this phone is pitiful in that respect  
works fine  
it was quite comfortable in the ear  
it has northern humour and positive about the community it represents  
even the squibs look awful  
i am so tired of clichs that is just lazy writing and here they come in thick and fast  
what a waste of time  
all the other cases ive tried normally fall apart after a few months but this one seems  
to be in for the long haul  
the most annoying thing about cover girl is the way in which rita hayworth is put up on  
a pedestal  
the seafood was fresh and generous in portion  
krussel always good  
phone now holds charge like it did when it was new  
i gotthe aluminum case for my new palm vx and it worked really wellit has protected my  
handheld perfectly so far

what possessed me to get this junk i have no idea  
the only thing that disappoint me is the infra red port irda  
overall i am psyched to have a phone which has all my appointments and contacts in and gets great reception  
battery charge life is quite long  
the goat taco didnt skimp on the meat and wow what flavor  
at least think to refill my water before i struggle to wave you over for minutes  
plus it was well paced and suited its relatively short run time  
final word this show is a real torture  
the best place to go for a tasty bowl of pho  
i also decided not to send it back because our waitress looked like she was on the verge of having a heart attack  
both of them were truly unbelievably good and i am so glad we went back  
what on earth is irons doing in this film  
magical help  
all this movie does is make you sick watching all these slackers make excuses for their stupid actions for minutes  
the plot doesnt hang together at all and the acting is absolutely appalling  
a lassie movie which should have been put to sleep forever  
the movie has almost no action scenes in it and very little comedy  
a great touch  
none of them are engaging or exciting  
this phone is very fast with sending any kind of messages and web browsing is significantly faster than previous phones i have used  
so absolutely fantastic  
both great  
all i have to say is the food was amazing  
this is probably the most irritating show i have ever seen in my entire life  
i love the scream movies and all horror movies and this one ranks way up there  
the company shipped my product very promptly and it works well  
the last times i had lunch here has been bad  
i hate those things as much as cheap quality black olives  
you need at least mins to get to your phone book from the time you first turn on the phone  
battery life is short  
my wife had the lobster bisque soup which was lukewarm  
this phone works great  
i loved the grilled pizza reminded me of legit italian pizza  
everything from acting to cinematography was solid  
it would take too long to describe how bad my customer service experience has been with amazon  
penne vodka excellent  
i recently had problems where i could not stay connected for more than minutes before being disconnected  
all in all i expected a better consumer experience from motorola  
also its slim enough to fit into my alarm clock docking station without removing the case  
one of my favorite purchases ever  
i might have gotten a defect but i would not risk buying it again because of the build quality alone  
you wont forget this movie  
if you simply want a small flip phone look elsewhere as the extra bells whistles are mediocre  
level spicy was perfect where spice didnt overwhelm the soup  
it looks very nice  
when my order arrived one of the gyros was missing  
dont make the same mistake that i did and please dont buy this phone  
this is an outstanding little restaurant with some of the best food i have ever tasted  
what a waste of money and time  
it was so bad i had lost the heart to finish it  
worst martini ever  
i own a jabra earset and was very happy with it but the sound quality especially outgoing on this is better  
warning do not buy  
i think food should have flavor and texture and both were lacking  
see it with your kids if you have a chance it will open up some amazing dialog about how far race relations have come in the last years

very bad experience  
highly recommend for any one who has a blue tooth phone  
the food was terrible  
they have a really nice atmosphere  
and the beans and rice were mediocre at best  
the transfers are very good  
the story unfolds in th century jutland and the use of period music played on period instruments is just one more fine touch  
i was particularly pleased with the acting ability of dwight schultz  
the guys all had steaks and our steak loving son who has had steak at the best and worst places said it was the best steak hes ever eaten  
i saw this film over christmas and what a great film it was  
it quit working after id used it for about months so i just purchased another one because this is the best headset ive ever owned  
excellently produced by one of scifis best producers scot vandiver  
authentic leather with nice shine and comfort i recommend you this case  
by the time the film ended i not only disliked it i despised it  
i wouldnt see this movie again for free  
jimmy stewart is as ever a great hero for hitchcock the story rips along to its cool climax at an embassy function but it lacks the brooding menace of hitchcocks black and white lowbudget original  
you cant beat the price on these  
say bye bye to your tip lady  
service is quick and even to go orders are just like we like it  
i ended up sliding it on the edge of my pants or back pockets instead  
i swung in to give them a try but was deeply disappointed  
a fantastic neighborhood gem  
the death row scenes were entirely unmoving  
i even dropped this phone into a stream and it was submerged for seconds and it still works great  
the food was very good  
i bought these hoping i could make my bluetooth headset fit better but these things made it impossible to wear  
i was left shattered from the experience of watching this film and i took a good two hours to fully recover  
how awful she is  
good case excellent value  
it feels more comfortable than most headsets because i wear glasses and that gets in the way sometimes  
weird vibe from owners  
how this piece of trash was ever released is beyond me the acting the story the characters the supposedly special effects etc its all wrong  
cant upload ringtones from a third party  
on a positive note our server was very attentive and provided great service  
it was clear that she had the range and ability to pull off this part  
ive owned this phone for months now and can say that its the best mobile phone ive had this is a disgrace  
waitress was sweet and funny  
people couldnt hear me talk and i had to pull out the earphone and talk on the phone  
the reception is excellent  
ive bought wired headphones that sound better than these  
beautiful styling though  
i am so pleased to know such a modern day genius is out there letting his passion for art drive him and taking us as an audience with him  
there is no real plot  
theres a horrible tick sound in the background on all my calls that i have never experienced before  
please stay away from the shrimp stir fried noodles  
very easy to use  
it fits my ear well and is comfortable on  
i felt as though her going to ireland did absolutely nothing whatsoever  
even when the women finally show up there is no sign of improvement the most expected things happen and by the time the film is over you might be far asleep  
the worst experience ever  
anyring toneoverall good phone to buy  
it was probably dirt

definitely worth checking out  
excellent performance  
bela lugosi was totally extraneous intoning odd lines  
go rent it  
we thought you'd have to venture further away to get good sushi but this place really hit  
the spot that night  
it's a great place and i highly recommend it  
easy to pair with my samsung cell  
loved it friendly servers great food wonderful and imaginative menu  
it defeats the purpose of a bluetooth headset  
i don't recommend unless your car breaks down in front of it and you are starving  
it plays louder than any other speaker of this size the price is so low that most would  
think the quality is lacking however it's not  
the selection on the menu was great and so were the prices  
he surely doesn't know how to make a coherent action movie from the screenwriter of air f  
orce one who was only obliged to write the script just for a big sum of money  
this is definitely a must have if your state does not allow cell phone usage while drivin  
g  
customer service was terrible  
absolutely great  
then the film just dropped the ball  
this product is very high quality chinese crap  
the color is even prettier than i thought it would be and the graphics are incredibly sh  
arp  
the biggest complaint i have is the battery drains superfast  
the decor is nice and the piano music soundtrack is pleasant  
just whatever you do avoid groove as it's the antithesis of all that is good about human  
traffic  
aside from its terrible lead this film has loads of other debits  
they also now serve indian naan bread with hummus and some spicy pine nut sauce that was  
out of this world  
i saw this short film on hbo the other day and absolutely loved it  
and the accents are absolutely abysmal  
probably not in a hurry to go back  
everything on phone work perfectly she like it  
the acting from all involved and that includes those like shatner and nimoy is bad and w  
ashed out and making them seem as old as they look in real life the special effects are  
tacky like when spock has to rescue kirk on a jet pack when he falls down from a mountai  
n  
great charger  
they had a toro tartare with a caviar that was extraordinary and i liked the thinly slic  
ed wagyu with white truffle  
love the margaritas too  
all the actors give a wonderful performance especially jennifer rubin as jamie harris wh  
o changes from the nervous starlet in the beginning through the strange events she is pa  
rt of to the cool star  
i have seen many movies starring jaclyn smith but my god this was one of her best though  
it came out years ago  
it always cuts out and makes a beep beep beep sound then says signal failed  
it's also great to see that renowned silent screenwriter frances marion hasn't missed a st  
ep going from silent to sound  
about ten minutes into this film i started having second thoughts  
it really is impressive that the place hasn't closed down  
i loved their mussels cooked in this wine reduction the duck was tender and their potato  
dishes were delicious  
who in their right mind is gonna buy this battery  
yet plantronics continues to use the same flawed charger design  
i want my money back  
i use this product in a motor control center where there is a lot of high voltage hummin  
g from the equipment and it works great  
they have a good selection of food including a massive meatloaf sandwich a crispy chicke  
n wrap a delish tuna melt and some tasty burgers  
this is a really fantastic thai restaurant which is definitely worth a visit  
this greedy corporation will never see another dime from me  
the building itself seems pretty neat the bathroom is pretty trippy but i wouldn't eat he  
re again

in fact this stinker smells like a direct to video release  
i have never had such bland food which surprised me considering the article we read focused so much on their spices and flavor  
you never know if you pushed it hard enough or the right number of times for the function you want or not  
this second appearance of mickey mouse following the silent plane crazy earlier that year is probably his most famous film mostly because it was so groundbreaking  
the food was great as always compliments to the chef  
the movie is terribly boring in places  
cool phone  
there is no plot or storyline  
terrible service  
went for lunch service was slow  
food was average at best  
best fish i've ever had in my life  
utterly without merit on any level this is akin to torture  
the chicken was deliciously seasoned and had the perfect fry on the outside and moist chicken on the inside  
definitely a bargain  
unfortunately we must have hit the bakery on leftover day because everything we ordered was stale  
the earbuds channel the sound directly into your ear and seem to increase the sound volume and clarity  
here in the wind and the lion we see a wonderful rendering of america's own imperial age

it felt like a very gripping intelligent stage play but without the overly theatrical feeling one actually gets from watching people on a stage which plays on everyone's terror of a white lie escalating to monstrous consequences  
john garfield ann revere lilli plmer william conrad canada lee and filmed by one of the greatest cinematographers to ever grace the screen james wong howe  
don't buy this product

great value  
i went to bachi burger on a friend's recommendation and was not disappointed  
i think it was robert ryans best film because he portrayed someone like my father and he was a schizophrenic in real life my father although he never murdered anyone but was affected more so during the second world war which made him worse  
the steaks are all well trimmed and also perfectly cooked  
the price was very good and with the free shipping and all it was a good purchase  
the directing and the cinematography aren't quite as good  
great place to relax and have an awesome burger and beer  
can't store anything but phone numbers to sim  
fantastic food

happy so far  
i have this phone and it is a thorn in my side i really abhor it  
it felt too light and tinny  
furthermore you can't even find hours of operation on the website  
i was very disappointed  
i find this inexcusable and so will probably be returning this phone and perhaps changing carriers

we got the food and apparently they have never heard of salt and the batter on the fish was chewy  
i hate movies like that  
my year old nokia from tracfone holds the charge a lot better than this  
it features an outlandish array of memorable psychotic but lovable nuts  
disappointing results  
it makes very strange ticking noises before it ends the call  
in summary this was a largely disappointing dining experience  
i give wirefly stari will contact cingular att and inform them of this practice  
if i take a picture the battery drops a bar and starts beeping letting me know it's dying  
the only thing that i think could improve is the sound leaks out from the headset  
worthless product

also there are combos like a burger fries and beer for which is a decent deal  
there is really nothing for me at postinos hope your experience is better  
i had always known that errol flynn was a brilliant actor as he was my dad's favourite actor and i grew up watching his films as a child

jawbone era is awesome too  
this convention never worked well in the past and certainly doesn't work here  
i'm so happy to be here  
pricing is a bit of a concern at Mellow Mushroom  
it's pretty surprising that this wonderful film was made in '68 as Hollywood generally had its collective heads in the sand concerning black and white issues at that time  
the only thing really worth watching was the scenery and the house because it is beautiful  
i'm not really sure how Joe's was voted best hot dog in the valley by readers of Phoenix Magazine  
i went on Motorola's website and followed all directions but could not get it to pair again  
not a good bargain  
thumbs up  
the real killer is the volume and of course it breaking  
seriously killer hot chai latte  
also great directing and photography  
i wouldn't return  
in fact it's hard to remember that the part of Ray Charles is being acted and not played by the man himself  
Ray Charles is legendary  
Ray Charles' life provided excellent biographical material for the film which goes well beyond being just another movie about a musician  
Hitchcock is a great director  
ironically i mostly find his films a total waste of time to watch  
secondly Hitchcock pretty much perfected the thriller and chase movie  
it's this pandering to the audience that sabotages most of his films  
hence the whole story lacks a certain energy  
the plot simply rumbles on like a machine desperately depending on the addition of new scenes  
there are the usual Hitchcock logic flaws  
Mishima is extremely uninteresting  
this is a chilly unremarkable movie about an author living/working in a chilly, abstruse culture  
the flat reenactments don't hold your attention because they are emotionally adrift and stagy  
and the rest of it just sits there being awful with soldiers singing songs about the masculinity they pledge themselves to, hairsplitting about purity, the admiration of swords etc  
he can bore you to pieces and kill the momentum of a movie quicker than anyone else  
Schrader has made a resume full of lousy amateurish films  
when i first watched this movie in the '80s i loved it  
i was totally fascinated by the music, the dancing, everything  
however i recently watched the whole thing again on DVD and i was completely struck by how extremely stupid the storyline was, how it contained holes, inconsistencies and frankly a whole lot of crap, and how horrid the dancing was  
i mean in a realistic world she would never have gotten into that ballet repertory, the whole thing was quite pathetic  
the character developments also lacked in depth  
woa talk about awful  
do not waste your time  
it was just too horrible  
the worst sappiest dialogue i could go on and on  
but what really made it unwatchable was the direction  
the poor actors  
you can't even tell if they have any talent because they not only have pathetic lines to speak but the director gave them no action  
if you check the director's filmography on this site you will see why this film didn't have a chance  
this would not even be good as a made-for-TV flick  
if good intentions made a film great then this film might be one of the greatest films ever made  
the film has great actors, a master director, a significant theme, at least a would-be significant theme, undertone of fifties existential worldweariness, aerial scenes that ought to have thrilled both senses and imagination and characters about which one might deeply care

regrettably the film fails  
the movie lacks visual interest drama expression of feeling and celebration of the very  
patriotism that underlines the narrative  
no actress has been worse used than June Allison in this movie  
yet I enjoy watching it  
unfortunately this is a bad movie that is just plain bad  
bad script bad direction and horrible acting make this one plain bad  
the dialogue sucked  
the cinematography if it can be called that sucked  
the soundtrack sucked  
the acting sucked  
the concert sequences just sucked  
that was nice  
that was funny  
it was so funny  
overall this movie was cheap trash  
but this movie is not funny considering the ridiculousness of it  
I came out of it feeling angry  
spoilers whatever else can or can't be said about it surface is superbly crafted  
the cinematography is simply stunning to say the least and the FX are nothing if not state of the art  
conceptually the show offers a little bit of everything and for just about everybody parents kids fantasy and for FX fans  
and there wasn't a single sour note struck acting wise either some surprisingly solid casting here  
all things considered a job very well done  
thanks good a movie like this was done and released  
one of the best Mexican movies ever and one of the less understood even by Mexican themselves no matter how identified they should have felt with it  
it ranks highly as a great noir crime drama incredible performances by Belmondo and Lino Ventura  
the attention given to every character and complex psychological portrayals detailing loyalty treachery love and hope are tremendous  
it is an excellent drama an excellent thriller and an excellent film  
up there with the best of Melville  
everything about this film is simply incredible  
you truly take this journey through the eyes and soul of a child  
Black Water is a thriller that manages to completely transcend its limitations it's an indie flick by continually subverting expectations to emerge as an intense experience  
the performances are real and gripping the crocodile is extremely well done indeed if the Black Water website is to be believed that's because they used real crocs and the swamp location is fabulous  
I thoroughly enjoyed it when Christopher Eccleston took control of the TARDIS and the continuation of the series  
I'm not sure what he was trying to do with this film  
if it was to turn my good day feeling into a night of disturbing memories then I guess he succeeded  
there is a lot of beautiful places  
it was forced like everything in this movie  
again lame  
here's where the movie really pissed me off  
and don't even get me started on the jerky camerawork  
when I saw it in the theater I thought I was going to be sick  
summary the witticisms weren't witty  
the plot well I said I'd let that one go  
the acting was bad  
really bad  
even Billy Bob couldn't rise above the script which was worse  
camerawork again bad  
rating out of  
an amazing finale to possibly the best trilogy of all time  
Kieslowski never ceases to amaze me  
he is one of my favourite directors and one of the most talented directors in the history of cinema  
his use of the colours of the French flag in the three films was nothing short of incredible every shot every scene was like a work of art

three of the most visually appealing movies ive ever seen  
and his subtle connections between the three films are awesome  
i have to mention this and it is a huge spoiler i loved the ending how all the character  
s of the three films were the remaining survivors of the ferry disaster with valentine a  
nd the young judge together and the old man watching it on her tv solidifying his happin  
ess over the suffering which he dealt with for those many years  
i couldnt think of a better way to end the film but a smile on my face great way to wrap  
up an amazing film and trilogy  
i recommend this for everyone who loves film movies anything a work of art  
out of for both the movie and trilogy  
i literally vomited while watching this film  
i think i was one of the people who found this another one of roths pearls  
his performance as awarded was stunning  
the story which was told so eloquently by francis ford coppola years earlier really unf  
olds gradually and leaves room for the characters to develop  
in a most wonderful location lies a story of contrast  
all in all a beautiful directed film from nicolas roeg wih a sublime cast  
im translating movies for a living and this is the first movie in my year working experi  
ence that i found offensive to my intelligence  
but when someone strives for greatness and poetry but delivers a muddled and often ridic  
ulous story a bunch of disparate scenes pretentious dialogue then you get the worst kind  
of a movie that some other reviewer very accurately defined as pretentious crap  
the holster that arrived did not match the photo in the ad  
appears to actually outperform the original battery from china that came with my vi  
the lines the cuts the audio everything is wrong  
its aggravating  
i had to purchase a different case  
provides good protection and looks classy too  
when im on this side of town this will definitely be a spot ill hit up again  
it has everything you could want suspense drama comedy confusing subplots native america  
ns brain eating if youre looking for the beall endall of brainsucking movies look no fur  
ther  
this is actually a very smart movie  
no complaints  
we ordered some old classics and some new dishes after going there a few times and were  
sorely disappointed with everything  
doesnt work at all i bough it for my lc and its not working  
it only recognizes the phone as its storage device  
spend your money elsewhere  
its a little geeky but i think thats its sex on toast and it rocks and oozes sex right d  
own to its battery embedded sleek stylish leather case  
but this movie is definitely a below average rent  
the movie had you on the edge of your seat and made you somewhat afraid to go to your ca  
r at the end of the night  
pretty good beer selection too  
the seller is very understanding and patient i would definitely buy from them again  
ordered burger rare came in well done  
none of it works just dont buy it  
a greasy unhealthy meal  
what a great double cheeseburger  
the stories were powerful explorations of the nature of man and of art  
at least min passed in between us ordering and the food arriving and it wasnt that busy  
sounds good reasonably priced and effective its that simple  
this movie is a pure disaster the story is stupid and the editing is the worst i have se  
en it confuses you incredibly  
i would not recommend this item to anyone  
and the red curry had so much bamboo shoots and wasnt very tasty to me  
speaking of the music it is unbearably predictably and kitchy  
this movie does an excellent job of revealing the complexity of the task and the incredi  
ble challenges facing south africa  
exceptionally bad  
director neil labute uses brutal violence toseperate dreams from reality and along with  
the touching drama and hilarious comedy you can never tell what is going to happen next  
  
but it is entertaining nonetheless  
im returning them

the results well are a shame  
very friendly staff  
the problem i have is that they charge for a sandwich that is no bigger than a subway s  
ub which offers better and more amount of vegetables  
the football scenes at the end were perplexing  
this is high adventure at its best  
the steak was amazingrge fillet relleno was the best seafood plate i have ever had  
my girlfriends veal was very bad  
no real improvement  
awful service  
i love lane but ive never seen her in a movie this lousy  
i kept catching the cable on the seat and i had to pull the phone out to turn it on an o  
ff  
however my recent experience at this particular location was not so good  
low quality  
real sushi lovers lets be honest yama is not that good  
i would highly recommend this product  
my score is mostly for the plot  
their menu is diverse and reasonably priced  
needless to say i wont be going back anytime soon  
its a total package  
do not purchase this phone  
dont trust their website and dont expect any helpful support  
i will not be eating there again  
looks great and is strong  
great food and awesome service  
the acting was bad the dialogs were extremely shallow and insincere  
awsome device works great  
freezes frequently  
the mic there is a joke and the volume is quite low  
itll be a regular stop on my trips to phoenix  
the manager was the worst  
great software for motorolas  
i must say i have taped most of the episodes and i find myself watching them over and ov  
er again  
and i forgot the casting here i superb with trond fausa aurvg being perfect in the role  
as the bothersome man who doesnt understand where he is what he is doing and why  
this one just fails to create any real suspense  
i just wanted to leave  
mediocre food  
youll love how thin it is  
ive had no trouble accessing the internet downloading ringtones or performing any of the  
functions  
this was my first crawfish experience and it was delicious  
while i managed to bend the leaf spring back in place the metal now has enough stress th  
at it will break on the next drop  
angus scrimm also turns in a good performance in a somewhat brief but memorable role as  
the gently menacing violinplaying anatomist doctor quinn  
nice headphones for the price and they work great  
the visual effects were awful  
the owner used to work at nobu so this place is really similar for half the price  
the food was delicious our bartender was attentive and personable and we got a great dea  
l  
will never ever go back  
highly recommended  
they do not care about the consumer one bit  
the voice recognition thru the handset is excellent  
it is worth the drive  
just had lunch here and had a great experience  
could not get strong enough signal  
thus far have only visited twice and the food was absolutely delicious each time  
very very fun chef  
i highly recommend this movie for anyone interested in art poetry theater politics or ja  
panese history  
i gave it a  
comfort for our whole family

waitress was a little slow in service  
ill take my business dinner dollars elsewhere  
so we went to tigerlilly and had a fantastic afternoon  
i vomited in the bathroom mid lunch  
people who like european films and art movies will like this movie  
would recommend this item  
the bathroom is just next door and very nice  
horrible had to switch times  
when i placed my tree into the case not only was it not snug but there was a lot of extra room on the sides  
this movie is great especially if you enjoy visual arts  
i can say that the desserts were yummy  
frozen pucks of disgust with some of the worst people behind the register  
my husband and i ate lunch here and were very disappointed with the food and service  
its a fresh subtle and rather sublime effect  
the phone was unusable and was not new  
the dialogue is composed of things that make little sense  
the pan cakes everyone are raving about taste like a sugary disaster tailored to the palate of a six year old  
your servers suck wait correction our server heimer sucked  
we wont be returning  
if you do watch it however there are small consolations the actresses playing annes sisters each do a wonderful job with their roles  
it was awesome  
the films dialogue is natural real to life  
i was not impressed by this product  
yes i am simplifying things here for the sake of brevity for this really is at the core of the problems with this film it has too much going on without any real fulfilling explanation  
disappointing experience  
this one wants to surf on the small wave of space movies in deep impact and armageddon and this one fails everywhere  
i think the most wonderful parts literally full of wonder are the excerpts from his works  
it holds a charge for a long time is reasonably comfortable under longwearing conditions and the quality of sound is tremendous  
the film lacks any real scares or tension some of the medical terminology used throughout is a bit iffy to say the least i say that as an insulin dependant diabetic myself  
the plug did not work very well  
if only someone involved with it knew how to string together narrative  
i also had to taste my moms multigrain pumpkin pancakes with pecan butter and they were amazing fluffy and delicious  
would come back again if i had a sushi craving while in vegas  
a good film by a great director  
i could not recommend these more  
what i really like there is the crepe station  
there was nothing believable about it at all  
the patio seating was very comfortable  
this is by far the worst purchase ive made on amazon  
those burgers were amazing  
this movie is possibly one of the most creative works of horror ever  
i would have given no star if i was able  
i probably wont be coming back here  
great food  
best bluetooth on the market  
theres really nothing bad i can say about this headset  
it is well made easy to access the phone and has a handy detachable belt clip  
portable and it works  
it does everything the description said it would  
i felt insulted and disrespected how could you talk and judge another human being like that  
but the convoluted plot just didnt convince me and much of the film was watched with a weird questioning glance  
all of the main players are mesmerising  
service was very prompt  
things happen characters personalities change plot twists occur for no real reason other

than that script calls for it  
dont make the same mistake i did  
the cast of veteran actors are more than just a nostalgia trip  
bt battery junk  
i really wanted the plantronics to be the right one but it has too many issues for meth  
e good  
i loved the bacon wrapped dates  
i mean really how do you get so famous for your fish and chips when its so terrible  
my first visit to hiro was a delight  
i rate this movie  
i liked this movie way too much  
what is even more stupid is that who had thought an idea that there should be a volcano  
in los angeles  
a happy wonderful feel good ending  
great for the jawbone  
comfortable nice range good battery life  
for the price on amazon it is an excellent product which i would highly recommend  
its reception is very very poor  
anyway the plot flowed smoothly and the malebonding scenes were a hoot  
the shipping time was also very quick  
i can take a little bad service but the food sucks  
this is a witty and delightful adaptation of the dr seuss book brilliantly animated by u  
pas finest and thoroughly deserving of its academy award  
simple lightweight and great fit  
this isnt a small family restaurant this is a fine dining establishment  
i love all the features and form factor  
i really loved the story line and the poler bear was kinda cutebut if anyone has a quest  
ion about fort steele just ask away  
i guess it was supposed to be clever twist then shed some light on the situation but it  
was just stupid  
we had a group of when we claimed we would only have and they handled us beautifully  
imdb ratings only go as low for awful its time to get some negative numbers in there fo  
r cases such as these  
the shrimp tender and moist  
it looses connection to the phone even when it is within a couple feet between the two  
i promise they wont disappoint  
it didnt work people can not hear me when i talk  
the scallop dish is quite appalling for value as well  
the movie was so boring that i sometimes found myself occupied peaking in the paper inst  
ead of watching never happened during a columbo movie before  
seems like a good quick place to grab a bite of some familiar pub food but do yourself a  
favor and look elsewhere  
an extensive menu provides lots of options for breakfast  
my drink was never empty and he made some really great menu suggestions  
their steaks are recommended  
this was my first time and i cant wait until the next  
overpriced for what you are getting  
kids pizza is always a hit too with lots of great side dish options for the kiddos  
and sometimes it was so embarrassing that i had to look away  
it is light has plenty of battery capacity and is very confortable to wear for somewhat  
extended periods of time  
avoid at all cost  
ill definitely be in soon again  
not worth it  
took an hour to get our food only tables in restaurant my food was luke warm our sever  
was running around like he was totally overwhelmed  
it is an hour and half waste of time following a bunch of very pretty high schoolers whi  
ne and cry about life  
a lady at the table next to us found a live green caterpillar in her salad  
some may say this buffet is pricey but i think you get what you pay for and this place y  
ou are getting quite a lot  
but then they came back cold  
i am more than happy with this product  
this is a great place to eat  
it finds my cell phone right away when i enter the car  
i had to go to a store and bought a new nokia phone which is working great

the one down note is the ventilation could use some upgrading  
unfortunately cover girl is an example of how hollywood used to exploit women for financial gain  
ill be looking for a new earpiece  
it was a long time that i didnt see a so charismatic actor on screen  
good product incredible value  
i highly recommend this modest priced cellular phone  
it wasnt busy at all and now we know why  
i understand that its supposed to be a cheap popcorn comedy but that doesnt mean that it has to completely insult our intelligence and have writing so incredibly hackneyed that it borders on offensive  
see it  
lucy bell is so much higher than this crap and for her to sink this low is quite depressing  
this place is good  
the pairing of the two devices was so easy it barely took a couple minutes before i started making calls with the voice dialing feature  
eww this location needs a complete overhaul  
maybe if they werent cold they would have been somewhat edible  
eclectic selection  
this case seems well made  
the story line is just awful  
i got this phone on recommendation from a relative and im glad i did  
i would have casted her in that role after reading the script  
i dont understand how this garbage got on the shelves of the movie store its not even a real movie  
the story line is totally predictable  
good beer drink selection and good food selection  
our server was fantastic and when he found out the wife loves roasted garlic and bone marrow he added extra to our meal and another marrow to go  
this is the first phone ive had that has been so cheaply made  
seriously flavorful delights folks  
brilliant  
then our food came out disappointment ensued  
phone falls out easily  
they made this case too small and is very difficult to install  
i hate to disagree with my fellow yelpers but my husband and i were so disappointed with this place  
ive lived here since and this was the first and last time ive stepped foot into this place  
dont waste your time  
i wouldnt recommend buying this product  
very disappointed in accessory  
having trouble with volume  
the menu had so much good stuff on it i could not decide  
better than new  
that company is a joke  
disappointed with battery  
nothing short of magnificent cinematography in this film  
i was not happy with this item  
now i am getting angry and i want my damn phone  
hopefully this bodes for them going out of business and someone who can cook can come in  
the risotto style calamari was a joke  
by this point my friends and i had basically figured out this place was a joke and didnt mind making it publicly and loudly known  
never got it  
honestly it didnt taste that fresh  
the food is good  
the grilled chicken was so tender and yellow from the saffron seasoning  
its so bad its actually worth seeing just for that reason  
i knew when i saw the film that more great things were to come from this gifted actor  
buyer beware you could flush money right down the toilet  
this is a great product sure beats using your fingers  
spend your money and time some place else  
the case is a flimsy piece of plastic and has no front or side protection whatsoever  
i found this place by accident and i could not be happier

unfortunately it only set us up for disappointment with our entrees  
the buttons for on and off are bad  
even allowing for poor production values for the time and the format some kind of minis  
eries this is baaaaaad  
great choice  
truly awful  
this movie contained an allstar cast and what i loved the most was that it opened my eye  
s to see other actors who i havent seen before  
the chips and sals a here is amazing  
utter crap sound quality is terrible  
i didnt think that the instructions provided were helpful to me  
best service and food ever maria our server was so good and friendly she made our day  
i used to talk on it for hours and the battery would be literally drained and dying  
sauce was tasteless  
i would recommend this  
they were excellent  
the bartender was also nice  
the guy who said hes had better dialogue with his potted plants has it right  
the use of slowmotion needlessly repeats itself throughout the movie but is well backed  
up by bad acting and bad is a kind word here no continuity scenes that are thrown in for  
no reason whatsoever vehicles that looked like they were made from a corn flakes box and  
a directorial style that bordered on stupidity  
i love it  
the ending is so so perfect youll shed a tear  
i am so thrilled after seeing a movie like this  
i will never forget it now  
it is not just a cult it is a cult classic  
which has more depth and character than the man underneath it  
the malta settings are as dry and as barren as the dialogue  
this movie is terrible  
the hockey scenes are terrible defensemen playing like theyre years old goalies diving  
at shots that are feet wide of the net etc  
for those that havent seen it dont waste your time  
to call this movie a drama is ridiculous  
started watching this but didnt believe in any of the characters  
in particular the relationship between the bakery assistant and the waitress just didnt  
work for me at all  
it was a very superficial movie and it gave me the feeling that i was watching play rath  
er than a film  
the characters were very stagey and the storyline was a lot like a stage farce  
by the time the pyromaniac waylaid the assistant i was bored and didnt care what happene  
d next and so i switched off  
glad i didnt pay to see it  
didnt laugh or even smile once  
but it wasnt anything at all just one big yawn  
it is a really good show to watch  
it is very educational for children to years old  
barney is definitely super de duper  
is pretty funny  
babie bop is very cute  
the kids are very cool too  
but storm trooper is not even bad enough to make it to the list of wonderfully terrible  
movies  
some applause should be given to the prelude however  
once your food arrives its meh  
i did not bother contacting the company for few dollar product but i learned the lesson  
that i should not have bought this form online anyway  
good prices  
cant get the software to work with my computer  
couldnt use the unit with sunglasses not good in texas  
i work in the hospitality industry in paradise valley and have refrained from recommendi  
ng cibo any longer  
i was so insulted  
im using it with an iriver spinn with case and it fits fine  
o mygosh the best phone i have ever had  
keep up the good work amazon

this is definitely a cult classic well worth viewing and sharing with others  
crash is a depressing little nothing that provokes emotion but teaches you nothing if yo  
u already know racism and prejudice are bad things  
thats how id describe this painfully dreary timewaster of a film  
also the area where my unit broke im not too fond of the magnetic strap  
as for the service im a fan because its quick and youre being served by some nice folks  
one of the most boringpointless movies i have ever seen  
bad quality  
just really good so far probably the best bt headset i have ever had  
the server was very negligent of our needs and made us feel very unwelcome i would not s  
uggest this place  
the service was a bit lacking  
i left the theater with a lilt in my step joy in my heart and hope for the human race  
about half way through this film i started to dislike it  
the acting as youd expect from this cast is top notch  
i would highly recommend this  
i have read others reviews here but i havent had any problem with it  
great for ipods too  
good item low price  
i still maintain that monkeys shouldnt make headphones we just obviously dont share enou  
gh dna to copy the design over to humans  
the crpe was delicate and thin and moist  
so dont go there if you are looking for good food  
thats a huge design flaw unless im not using it correctly which i dont think is the case  
muddy low quality sound and the casing around the wires insert was poorly super glued an  
d slid off  
host staff were for lack of a better word bitches  
come hungry leave happy and stuffed  
i cant believe theres even a sequel to this  
price is good too  
he really didnt seem to want to be hosting his voiceovers were monotonous didnt get invo  
lved with the guests  
we waited for forty five minutes in vain  
i ordered the lemon raspberry ice cocktail which was also incredible  
it was extremely crumbly and pretty tasteless  
this may be the only bad film he ever made  
still it makes up for all of this with a super ending that depicts a great sea vessel be  
ing taken out by the mighty frost  
the cast is good  
sucked most of the stuff does not work with my phone  
i was very excited to get this headset because i thought it was really cute  
used and dirty  
never been to hard rock casino before will never ever step forward in it again  
fantastic earphones  
the kids are annoying  
i dressed up to be treated so rudely  
not recommended  
i bought this to use with my kindle fire and absolutely loved it  
good case  
i totally and absolutely recommend this movie to anyone who likes good wholesome family  
movies because that is exactly what this is  
it works  
i like steiners because its dark and it feels like a bar  
both do good jobs and are quite amusing  
this is one of peter watkins most accessible films  
i am pairing this with my iphone and i could not be happier with it so far  
one thing i hate is the mode set button at the side  
the waitress and manager are so friendly  
this fixes all the problems  
your staff spends more time talking to themselves than me  
perhaps i caught them on an off night judging by the other reviews but im not inspired t  
o go back  
the chicken dishes are ok the beef is like shoe leather  
bad choice  
awful  
thisreally is how vegas fine dining used to be right down to the menus handed to the la

dies that have no prices listed  
im pleased  
server did a great job handling our large rowdy table  
the waitress was friendly and happy to accomodate for veganveggie options  
good works fine  
which is precisely why i am giving it such a bad review  
when i opened the sandwich i was impressed but not in a good way  
my gyro was basically lettuce only  
the battery life is highly unacceptable  
for about minutes we were waiting for her salad when we realized that it wasnt coming a  
ny time soon  
everything about it is just bad  
but if you liked movies like the matrix and better yet their sequels i think youll appre  
ciate the thought provoking mindblowing experience this film will give you  
pretty awesome place  
very happy with this product  
the cashier was friendly and even brought the food out to me  
the reception through this headset is excellent  
im really disappointed all i have now is a charger that doesnt work  
the story is beyond stupid  
i received my headset in good time and was happy with it  
i asked multiple times for the wine list and after some time of being ignored i went to  
the hostess and got one myself  
but despite these few flaws this case is of exceptional quality and well worth the addit  
ional costs of owning an official oem product  
very good lunch spot  
it will drive you barking mad  
steer clear of this product and go with the genuine palm replacementr pens which come in  
a threepack  
i have yet to run this new battery below two bars and thats three days without charging  
this was utterly confusing at first which caused me to lose a couple of very very import  
ant contacts  
works well  
just as good as when i had it more than a year ago  
a mature subtle script that suggests and occasionally brings into dramatic focus the und  
erlying tensions is well served by perfect performances apart from the odd inappropriate  
smiling that keira knightley is prone to though perhaps under direction this time as the  
other characters themselves often mention it  
a lot of websites have been rating this a very good phone and so do i  
its very attractive and appears to be of good quality  
i wont try going back there even if its empty  
the salad had just the right amount of sauce to not over power the scallop which was per  
fectly cooked  
i am very impressed with this headset from plantronics  
service was fine and the waitress was friendly  
we were sat right on time and our server from the get go was fantastic  
so mediocre in every aspect that it just becomes a dull uninteresting mess this is one o  
f the most forgettable movies ive seen  
instead we got a bore fest about a whiny spoiled brat babysitting  
the flair bartenders are absolutely amazing  
this movie creates its own universe and is fascinating in every way  
i have a verizon lg phone and they work well together good reception and range that exce  
eds feet line of sight  
a couple of months later i returned and had an amazing meal  
terrible product and waste of money  
i especially love the long battery life  
my sashimi was poor quality being soggy and tasteless  
the wife hated her meal coconut shrimp and our friends really did not enjoy their meals  
either  
thanks again to amazon for having the things i need for a good price  
overall a delight  
bad reception  
i dont eat much pasta but i love the homemade hand made pastas and thin pizzas here  
i would definitely recommend the wings as well as the pizza  
the memories are murky but i can only say that i enjoyed every single episode and produc  
t related to the show

att is not clear sound is very distorted and you have to yell when you talk  
exactly what i wanted  
disappointment i hate anything that goes in my ear  
i get absolutely horrible reception in my apartment where with other phones i have not had this problem  
does everything it should and more  
you need two hands to operate the screen this software interface is decade old and cannot compete with new software designs  
i want to first say our server was great and we had perfect service  
id advise anyone to go and see it  
tasted like dirt  
linked to my phone without effort  
they have horrible attitudes towards customers and talk down to each one when customers dont enjoy their food  
google mediocre and i imagine smashburger will pop up  
last time buying from you  
its a case of so bad it is laughable  
the refried beans that came with my meal were dried out and crusty and the food was bland  
i have had mine for about a year and this christmas i bought some for the rest of the family  
this scene is very strong and unpleasant  
worth every penny  
they also have the best cheese crisp in town  
the food was barely lukewarm so it must have been sitting waiting for the server to bring it out to us  
we sat another ten minutes and finally gave up and left  
this product is great it makes working a lot easier i can go to the copier while waiting on hold for something  
couldnt figure it out  
phenomenal food service and ambiance  
the food was outstanding and the prices were very reasonable  
definitely will come back here again  
plan on ordering from them again and again  
i never come again  
the restaurant atmosphere was exquisite  
considering the relations off screen between taylor and stanwyck it was surprising how little chemistry there was on screen between the two of them  
its a sad movie but very good  
the owners really really need to quit being soooooo cheap let them wrap my freaking sandwich in two papers not one  
overall i rate this movie a out of a scale  
these are fabulous  
generally it just lacked imagination  
love this product  
the spaghetti is nothing special whatsoever  
excellent wallet type phone case  
nargile i think you are great  
i have watched their prices inflate portions get smaller and management attitudes grow rapidly  
the service was poor and thats being nice  
this is cool because most cases are just open there allowing the screen to get all scratched up  
i love the decor with the chinese calligraphy wall paper  
wasted two hours  
very disappointed and wondered how it could be in the oscar shortlist  
the bus boy on the other hand was so rude  
so i basically threw my money out the window for nothing  
the headsets are easy to use and everyone loves them  
its just lame  
the cast is always entertaining as usual  
this was a poor remake of my best friends wedding  
best of all is the rotating feature very helpful  
i struggle to find anything bad to say about it  
this is a masterful piece of filmmaking with many themes simmering and occasionally boiling over in this warts and all study of the poets bohemian self-indulgent wartime years

hat span the aerial bombardments of london and the outward tranquillity of a welsh coastal retreat the borderlines between friendship lust and love dedication to art and experience versus practical concerns jealousy rivalry cowardice and egotism versus heroism and selfsacrifice and more

if you love authentic mexican food and want a whole bunch of interesting yet delicious meals to choose from you need to try this place

product is useless since it does not have enough charging current to charge the cellphones i was planning to use it with

very pleased with this headset

im still trying to get over how bad it was

it was that year however that reminded us that houston was still at the top of his game as evinced by his faithful adaptation of james joyces acclaimed novella the dead

i love the fact that everything on their menu is worth it

each track commands sentiment actually contributing to the scenes and characters works great

every element of this story was so over the top excessively phony and contrived that it was painful to sit through

after minutes wait i got a table

however i needed some better instructions

i highly recommend this case

my friend loved the salmon tartar

integrated seamlessly with the motorola razr phone

meredith m was better than all right

we had fantastic service and were pleased by the atmosphere

wonderful lil tapas and the ambience made me feel all warm and fuzzy inside waste of bucks

to those who find this movie intelligent or even masterful i can only say its your intelligence and your imagination you obviously used to try and make some sense of this pitiful attempt its in our human nature to try and make sense of things

its a feelgood film and thats how i felt when i came out of the cinema

this product is clearly not ready for prime time i dont care how cool it looks if you cant tell a call is coming in its worthless

its uncomfortable and the sound quality is quite poor compared with the phone razr or with my previous wired headset that plugged into an lg

it works great with a car charger especially if you cannot plug in two adapters at the same time

doesnt work

an italian reviewer called this a small great film and thats right

i love this place

kind of hard to mess up a steak but they did

product was excellent and works better than the verizon one and boy was it cheaper plug was the wrong size

the only thing worse than taylor's acting was stanwyck's singing

be sure to order dessert even if you need to pack it to go the tiramisu and cannoli are both to die for

steve martin delivers a really funny performance of a middleaged upper class uptight white guy

mic doesnt work

the vegetarian platter is out of this world

all it took was one drop from about inches above the kitchen counter and it was cracked i am not impressed and i am not laughing

lightweight and works well

nice spicy and tender

i have tried these cables with my computer and my ipod and it works just fine

i find wasting food to be despicable but this just wasn't food

doesn't do the job

i am very impressed with the job that motorola did on the sturdiness of this phone

so for our enjoyment we get to see them run around play games and be dangerous

also i feel like the chips are bought not made in house

it also took her forever to bring us the check when we asked for it

so badwellits just bad

i could not understand what kind of idiot would produce this mess in the first place not to mention several seasons

the deal included tastings and drinks and jeff went above and beyond what we expected it is cheap and it feels and looks just as cheap

it was horrendous

being a s child i truly enjoyed this show and i can proudly say that i enjoyed it big ti  
me and even more than the classical wb cartoons  
this is infuriating  
the atmosphere is modern and hip while maintaining a touch of coziness  
it is the best charger i have seen on the market yet  
also the phone doesnt seem to accept anything except cbr mps preferably ripped by window  
s media player  
of course the acting is blah  
anyway i do not think i will go back there  
great service and food  
we enjoy their pizza and brunch  
this blueant supertooth handsfree phone speaker is awesome  
the dining space is tiny but elegantly decorated and comfortable  
tonight i had the elk filet specialand it sucked  
we have tried units and they both failed within months pros  
but in terms of the writing its very fresh and bold  
steamboat willie is an amazingly important film to our cinema history  
definitely worth venturing off the strip for the pork belly will return next time im in  
vegas  
plus with the movies rather modest budget and fast running time it does an amazing job  
i am going to have to be the first to negatively review this product  
the telephone repair man was really funny and his reactions to the nuts and bitchy boss  
were truly genuine  
go and see it  
there is simply no excuse for something this poorly done  
i really enjoyed eating here  
all in all i can assure you ill be back  
battery life is real good  
great steak great sides great wine amazing desserts  
an excellent performance from ms  
it works fine on my motorola cellphone and a lot better than the wornout battery did  
i am far from a sushi connoisseur but i can definitely tell the difference between good  
food and bad food and this was certainly bad food  
the yellowtail carpaccio was melt in your mouth fresh  
not frightening in the least and barely comprehensible  
to sum the film up breeders is a terrible cheaply made horror movie that should be avoid  
ed like the ebola virus  
thoroughly disappointed  
very good food great atmosphere  
great hands free device  
the staff is great the food is delish and they have an incredible beer selection  
i will come back here every time im in vegas  
star trek v the final frontier is the worst in the series  
every time he opened his mouth you expect to hear you see kids pulling the plug was a me  
rcy killing for this horrible show  
this is not moviemaking  
im very disappointed with my decision  
the only good thing was that it fits comfortably on small ears  
give this one a look  
worked perfectly  
to be honest with you this is unbelievable nonsense and very foolish  
they brought a fresh batch of fries and i was thinking yay something warm but no  
on the up side their cafe serves really good food  
this hole in the wall has great mexican street tacos and friendly staff  
easily none other cartoon made me laugh in a tender way before getting into dark sitcoms  
oriented for teenagers  
poor sound quality  
very prompt service  
you get extra minutes so that you can carry out the call and not get cut off  
oh yeah and the storyline was pathetic too  
best tater tots in the southwest  
i do love sushi but i found kabuki to be overpriced overhip and underservices  
waiter was a jerk  
for service i give them no stars  
hatedit  
this phone is slim and light and the display is beautiful

avoid at all costs  
voice recognition is tremendous  
would not recommend to others  
there still are good actors around  
every single character was hilarious and deserved to be called a lead  
improper description i had to return it  
i guess i should have known that this place would suck because it is inside of the exca-  
ibur but i didnt use my common sense  
other than that the leather is nice and soft the fit is very tight the cut out for the f-  
ace is a good shape  
blue ant is easy to use  
but above all the exquisite visual composition of each moment with inventive and elegant  
use of closeup camera angle and lighting including pointillistic faux home movie footag-  
e is a wonder and joy to behold  
it has kept up very well  
wow very spicy but delicious  
dont be afraid of subtitles its worth a little aversion therapy  
great sound and service  
using all earpieces left or right this thing will not stay on my ear  
the whole experience was underwhelming and i think well just go to ninja sushi next time  
ive missed numerous calls because of this reason  
bacon is hella salty  
highly unrecommended  
my father has the v and the battery is dying  
putting the race card aside lets look at the major flaw in the film they destroy latifas  
character  
piece of junk  
will never ever go back and have told many people what had happened  
stopped by this place while in madison for the ironman very friendly kind staff  
boy was that sucker dry  
highquality chicken on the chicken caesar salad  
sprint charges for this service  
the battery is working well as a replacement for the original that came with the phone o-  
ver years ago  
after waiting an hour and being seated i was not in the greatest of moods  
they have a plethora of salads and sandwiches and everything ive tried gets my seal of a  
pproval  
the instructions didnt explain that a microphone jack could be used  
the food sucked which we expected but it sucked more than we could have imagined  
the chips that came out were dripping with grease and mostly not edible  
ursula burtons portrayal of the nun is both touching and funny at the same time with out  
making fun of nuns or the church  
we are so glad we found this place  
it doesnt make you look cool  
it even has its sweet moments  
awesome selection of beer  
if youre not familiar check it out  
you could only take videos at a time and the quality was very poor  
very nice and relaxing late night viewing  
we made the drive all the way from north scottsdale and i was not one bit disappointed  
if you are razr owneryou must have this  
any grandmother can make a roasted chicken better than this one  
lovely little thriller from hitchcock with lots of nice shenanigans surrounding a murder-  
ed spy a kidnapped child a nasty church a foreign plot and some random taxidermists  
very comfortable  
the steak and the shrimp are in my opinion the best entrees at gc  
i seriously cannot believe that the owner has so many unexperienced employees that all a-  
re running around like chickens with their heads cut off  
it really created a unique feeling though  
we would recommend these to others  
no plot whatsoever  
i am not impressed with this and i would not recommend this item to anyone  
very windresistant  
also makes it easier to hold on to  
thescreen does get smudged easily because it touches your ear and face  
my brother in law who works at the mall ate here same day and guess what he was sick all

night too  
an excellent new restaurant by an experienced frenchman  
really awful  
they are so cool  
never heard of any of them except cole who was totally unbelievable in the part  
i love this phone  
both rickman and stowe play their roles to the hilt in this tale of a childrens book writer who maybe has written a subversive tract  
please dont waste your money  
great price too  
i cannot make calls at certain places  
i go to far too many places and ive never seen any restaurant that serves a egg breakfast especially for  
this mostly routine factbased tv drama gets a boost from the fine performance by cole  
so anyone near you will hear part of your conversation  
the worst was the salmon sashimi  
the shower area is outside so you can only rinse not take a full shower unless you dont mind being nude for everyone to see  
this place is amazing  
it came free with a dvd player i bought but i still turned the thing off halfway through because i was embarrassed for howell  
i only used it two days and it wasnt always easy to hear with  
restaurant is always full but never a wait  
i have been here several times in the past and the experience has always been great  
the original body and soul is a masterpiece  
highly recommended a  
the chicken wings contained the driest chicken meat i have ever eaten  
watching washing machine twirling around wouldnt hurt your eyes as much as this show  
the design might be ergonomic in theory but i could not stand having these in my ear  
a great way to finish a great  
i was mortified  
the characters are fleshed out surprisingly well particularly grimes and blake and all the actors deliver their sharply scripted lines with just the right amount of deadpan tongue in cheek to make the dialogue both hilarious and realistic  
i like armand assante my cable companys summary sounded interesting so i watched it twice already and probably will again  
it is very comfortable on the ear  
this place is two thumbs upway up  
very good product well made  
the food is rich so order accordingly  
there is nothing authentic about this place  
first of all there are enough racial stereotypes and racial jokes to offend everyone  
it failed to convey the broad sweep of landscapes that were a great part of the original  
  
characters are onedimensional even the good guys and especially the bad guys  
best buffet in town for the price you cannot beat it  
great place to have a couple drinks and watch any and all sporting events as the walls are covered with tvs  
seafood was limited to boiled shrimp and crab legs but the crab legs definitely did not taste fresh  
they really want to make your experience a good one  
for bucks a head i really expect better food  
very cheap plastic creaks like an old wooden floor  
delicious nyc bagels good selections of cream cheese real lox with capers even  
in the summer you can dine in a charming outdoor patio so very delightful  
the rest of the movie lacks art charm meaning if its about emptiness it works i guess because its empty  
the nachos are a must have  
the screen size is big key pad lit well enough and the camera quality is excellent for a camera phone  
it was equally awful  
horrible phone  
it was attached to a gas station and that is rarely a good sign  
were jerks on the phone  
andfinally after all that we get to an ending that wouldve been great had it been handled by competent people and not jerry falwell

another note about this phones appearance is that it really looks rather bland especially in the all black model  
nonlinear narration thus many flashbacks and every part are articulated quite well  
the real disappointment was our waiter  
the jamaican mojitos are delicious  
the service here is fair at best  
this is an unbelievable bargain  
i got food poisoning here at the buffet  
filming was less expansive  
it rocked my world and is certainly a must see for anyone with no social or physical outlets  
lousy product  
i wont be back  
not much dialogue not much music the whole film was shot as elaborately and aesthetically like a sculpture  
this frog phone charm is adorable and very eye catching  
love this phone  
my fianc and i came in the middle of the day and we were greeted and seated right away  
there is so much good food in vegas that i feel cheated for wasting an eating opportunity by going to rice and company  
the plot such as it is is so derivative and predictable that the ending is like a mercy killing  
everything worked on the first try the device was certainly engineered in a clever way and the construction feels good  
bad purchase  
the first thing that happened was that the tracking was off  
kris kristoffersen is good in this movie and really makes a difference  
this is one i did not have but i watched it recently on fox movie channel and was very disappointed  
the best scene in the movie was when gerardo is trying to find a song that keeps running through his head  
stanwyck and morgan are perfectly cast in what is in many ways a modern equivalent of dickens christmas carol in its sensibility  
great subway in fact its so good when you come here every other subway will not meet your expectations  
i believe that this place is a great stop for those with a huge belly and hankering for sushi  
the ambiance isnt much better  
unfortunately inexperience of direction meant that scene after scene passed with little in the way of dramatic tension or conflict  
i got the car charger and not even after a week the charger was broken i went to plug it in and it started smoking  
the bottom line another worthless cheap gimmick from sprint  
the art style has the appearance of crayon pencil drawings and is wonderfully colorful and fanciful  
i had absolutely no problem with this headset linking to my blackberry curve  
its not hard to make a decent hamburger  
top line dont waste your time and money on this one its as bad as it comes  
the camera on the phone may be used as a dustpan when indoors id rather be using a disposable than this  
the range is very decent ive been able to roam around my house with the phone in the living room with no reception sound quality issues  
after the disappointing dinner we went elsewhere for dessert  
the macarons here are insanely good  
the new characters werent all that memorable and i found myself forgetting who was who  
i dont think ive ever gone to a movie and disliked it as much  
based on the subpar service i received and no effort to show their gratitude for my business i wont be going back  
i particularly remember my senses being assaulted by strident cords of music that would blare out with very little warning and even less meaning  
i was very impressed with the price of the cases  
service was good and the company was better  
for the price this was a great deal  
big disappointment with calendar sync  
it was very popular when i was in the cinema a good house and very good reactions and plenty of laughs

garbo who showed right off the bat that her talents could carry over from the silent era  
i wanted to see some of her silent work but netflix doesn't seem to be stocking them  
interesting decor  
good value works fine power via usb car or wall outlet  
not enough volume  
on the good side the staff was genuinely pleasant and enthusiastic a real treat  
it was a great phone  
during several different minute calls i experienced drops and it was in an area that had bars  
it's one of the movies i need to see whenever it comes on tv never mind the fact that i already have it memorized  
the han nan chicken was also very tasty  
items stated as included from the description are not included  
if you are looking for a movie with a terrific cast some good music including a shirley jones rendition of the way you look tonight and an uplifting ending give this one a try  
very good phone  
everything was gross  
i don't know what kind it is but they have the best iced tea  
all three broke within two months of use  
this film highlights the fundamental flaws of the legal process that it's not about discovering guilt or innocence but rather is about who presents better in court  
oh the charger seems to work fine  
the potato chip order was sad i could probably count how many chips were in that box and it was probably around  
however after finally watching this film i realized that not only had i had a closed mind to the brilliance it depicts i also found myself watching it over and over again  
the potatoes were great and so was the biscuit  
also the fries are without a doubt the worst fries i've ever had  
the staff was very attentive  
the service was meh  
will definitely be back  
why was this film made  
i really enjoyed crema caf before they expanded i even told friends they had the best breakfast  
i love that they put their food in nice plastic containers as opposed to cramming it in little paper takeout boxes  
the only suspense i was feeling was the frustration at just how retarded the girls were

the item received was counterfeit  
the staff are now not as friendly the wait times for being served are horrible no one even says hi for the first minutes  
i can't wait to go back  
and the chef was generous with his time even came around twice so we can take pictures with him  
excellent phone  
gotta love those closeups of slimy drooling teeth  
paolo sorrentino has written a wonderful story about loneliness and tony has built one of the most unforgettable characters seen in movies in recent years  
i was shocked because no signs indicate cash only  
this one works and was priced right  
the phone is sturdy and waterproof  
i love this thing  
i can assure you that you won't be disappointed  
the jalapeno bacon is soooo good  
i had a pretty satisfying experience  
there are many continuity errors one other user commented on different cars in the garage joes glasses the one that got to me the most was the fact joes facial hair configuration seemed to change from scene to scene  
i will never go back to this place and will never ever recommend this place to anyone  
verizon's bills however are difficult to understand even though their pricing plans are simple  
this is definitely one of the better documentaries i have seen looking at family relationships and marriage  
we walked away stuffed and happy about our first vegas buffet experience  
they could be used as exemplars for any set designer  
long lasting battery you don't have to recharge it as frequently as some of the flip phones

ones  
one nice thing was that they added gratuity on the bill since our party was larger than  
or and they didnt expect more tip than that  
a cheap and cheerless heist movie with poor characterisation lots of underbite style sto  
ic emoting think chow yun fat in a better tomorrow and some cheesy clichs thrown into an  
abandoned factory ready for a few poorly executed flying judo rolls a la john woo  
jabra ear gels r the best  
and generally the lines and plot is weaker than the average episode  
poor quality and service  
the incredible soundtrack truly captures the essence of the film  
i was very uneasy with how bad this movie was but not scared at all  
very much disappointed with this company  
as an earlier review noted plug in this charger and nothing happens  
the turkey and roast beef were bland  
great product fast shipping  
stay away from the q  
what a waste  
it actually turned out to be pretty decent as far as blist horrorsuspense films go  
oh this is such a thing of beauty this restaurant  
it was pretty gross  
no one at the table thought the food was above average or worth the wait that we had for  
it  
too politically correct  
favorite place in town for shawarrrrrrma  
the jabra eargels fit my ears very well  
good value great food great service  
there were several moments in the movie that just didnt need to be there and were excruc  
iatingly slow moving  
the phone gets extremely hot  
if you act in such a film you should be glad that youre gonna drift away from earth as f  
ar as possible  
definitely not worth the i paid  
the chicken i got was definitely reheated and was only ok the wedges were cold and soggy  
there is a brilliant twist ending  
and none of the tones is acceptable  
same problem as others have mentioned  
clear crisp sound  
the service was terrible food was mediocre  
amazon sucks  
i will continue to come here on ladies night andddd date night highly recommend this pl  
ace to anyone who is in the area  
and only because there is no setting for  
the atmosphere here is fun  
made very sturdy  
in the span of an hour i had two people exclaim whoa is that the new phone on tv  
the service here leaves a lot to be desired  
the sets are so bad they wouldnt look out of place on a thunderbirds episode  
there was a few pathetic attempts to give the characters some depth but it didnt really  
work into the rest of the plot  
no ear loop needed its tiny and the sound is great  
i certainly do not mean this distinction in a good way  
this show is made for americans it is too stupid and full with hatred and clichs to be  
admitted elsewhere  
its a great item  
the secondary plot line is incomprehensible and its relation to the primary plot line is  
mystifying  
my sanyo has survived dozens of drops on blacktop without ill effect  
so far it has worked like a charm  
uncomfortable in the ear dont use with lg vx env  
not good for the money  
i love the ownerchef his one authentic japanese cool dude  
walked in and the place smelled like an old grease trap and only others there eating  
oh and i forgot to also mention the weird color effect it has on your phone  
really pleased with this product so far  
that was done in the second movie  
protects the phone on all sides

worst foodservice ive had in a while  
the instruction manual is lacking  
predictable but not a bad watch  
worthwhile  
reaching for the bottom row is uncomfortable and the send and end keys are not where i expect them to be  
poor reliability  
the attempts at humor were pitiful and story is so awful it doesnt bear thinking about which basically involves a vulcan stealing the enterprise to find god seriously i just didnt care about any of this film and oh not to mention uhura does a belly dance to distract male guards  
warning stay away  
helen baxendale is a very credible lady macbeth who can be very cheerfull at times and sometimes she just looks like a naughty girl but deadly in her taste for blood and evil  
it wasnt busy either also the building was freezing cold  
what should have been a hilarious yummy christmas eve dinner to remember was the biggest fail of the entire trip for us  
this place receives stars for their appetizers  
it didnt charge for me  
not my thing  
worst hour and a half of my lifeoh my gosh  
ambience is perfect  
the directing seems too pretentious  
for a product that costs as much as this one does i expect it to work far better and with greater ease than this thing does  
the atmosphere was great with a lovely duo of violinists playing songs we requested  
there were too many close ups  
rating grade z note the show is so bad that even mother of the cast pull her daughter out of the show  
none of the new ones have ever quite worked properly  
food quality has been horrible  
i usually dont like headbands but this one is very lightweight doesnt mess up my hair  
delicious  
i give it thumbs down  
the movie seemed a little slow at first  
i checked out this place a couple years ago and was not impressed  
would not recommend  
first time going but i think i will quickly become a regular  
the pancake was also really good and pretty large at that  
in fact i liked it better than interview with a vampire and i liked this lestat stuart townsend better than cruises attempt  
i know this is not like the other restaurants at all something is very off here  
feelings thoughtsgabriels discomfort during the danceall these intangibles leap to life and come within the viewers grasp in hustons portrayal  
it is a very well acted and done tv movie  
much more interesting more action more suspense and less of the unneeded controversy  
punishment park is a brilliant piece of cinema  
the best electronics of the available fm transmitters  
then scene where they debated whether or not to sack the trumpeter who falsely was accused for the murder is pure horror really stupid  
their monster chicken fried steak and eggs is my all time favorite  
we watched our waiter pay a lot more attention to other tables and ignore us  
great it was new packaged nice works good no problems and it came in less time then i expected  
ordered a double cheeseburger got a single patty that was falling apart picture uploaded yeah still sucks  
the igo chargers and tips are really great  
gave up trying to eat any of the crust teeth still sore  
im so sorry but i really cant recommend it to anyone  
if the two were seperated by a mere ft i started to notice excessive static and garbled sound from the headset  
the text messaging feature is really tricky to use  
its not what it says it is  
these products cover up the important light sensor above the ear outlet  
i tried the cape cod ravioli chickenwith cranberrymmmm  
the portion was huge

was not happy  
the menu is always changing food quality is going down service is extremely slow  
the first time i ever came here i had an amazing experience i still tell people how awesome the duck was  
the cashew cream sauce was bland and the vegetables were undercooked  
hackneyed writing certainly but made even worse by the bad directing  
terrible my car will not accept this cassette  
so just beware  
leopard print is wonderfully wild  
if you want a sandwich just go to any firehouse  
i ordered this product first and was unhappy with it immediately  
emily watsons character is very strong and she has only to give a quick glance and you understand everything  
really ugly  
waited hours never got either of our pizzas as many other around us who came in later did  
the battery works great  
ps the only scene in the movie that was cool is when the central character finds her room blown up  
it has been a winner for us  
plus i seriously do not believe it is worth its steep price point  
very unreliable service from tmobile  
i mean this in a terrible way  
in addition it feels and looks as if the phone is all lightweight cheap plastic  
the keyboard is really worthwhile in usefulness and is sturdy enough i dont expect any problems  
great place to take out or eat in  
its been my choice headset for years great sound good volume good noise cancellation  
its the one movie that never ceases to interest me simply because it keeps me alert as i try to attempt to decipher its meanings  
fans of the genre will be in heaven  
no additional ear gels provided and no instructions whatsoever  
it is practically useless and did not add any kind of boost to my reception after i bought it  
it is zillion times away from reality  
the tracfone website is user friendly and makes it easy to activate etc  
plantronics bluetooth excellent buy  
great bluetooth  
if you want healthy authentic or ethnic food try this place  
full of unconvincing cardboard characters it is blandly written by edward chodorov who also produced and is surprisingly directed by jean negulesco from whom one would expect a great deal more  
i had a salad with the wings and some ice cream for dessert and left feeling quite satisfied  
but it wasnt until i watched this film that i realised how great he actually was  
this place is overpriced not consistent with their boba and it really is overpriced  
conclusion very filling meals  
worst software ever used if i could give this zero stars i would  
the attractive set used throughout most of the film is an eyepleasing gem  
do yourself a favor and stay away from this dish  
if you hate earbugs avoid this phone by all means  
you can find better movies at youtube  
when my mom and i got home she immediately got sick and she only had a few bites of salad  
i just cant explain this movie more than romantic charming hilarious and adorable the junkyard scenes are funny all the junkyard dogs have something special too funny i laughed kids will love it buy it when it comes out it has new features  
lastly the mozzarella sticks they were the best thing we ordered  
totally different with loads of understatement and black comedy this is a film few get to see but those who do will remember it  
manna from heaven is a terrific film that is both predictable and unpredictable at the same time  
disappointing accessory from a good manufacturer  
couldnt ask for a more satisfying meal  
the pizza selections are good  
this is some seriously good pizza and im an expert connoisseur on the topic

their regular toasted bread was equally satisfying with the occasional pats of butter mm  
mm  
an interesting premise and billy drago is always good as a dangerous nutbag side note id  
love to see drago stephen mchattie and lance hendrikson in a flick together talk about  
raging cheekbones  
the restaurant is very clean and has a family restaurant feel to it  
works as described  
you cant go wrong with any of the food here  
i probably wont be back to be honest  
omg the food was delicioso  
only pros large seating area nice bar area great simple drink menu the best brick oven  
pizza with homemade dough  
have been going since and every meal has been awesome  
the fish is badly made and some of its underwater shots are repeated a thousand times in  
the film  
poorly contstruct hinge  
you can watch them preparing the delicious food  
i love their fries and their beans  
excellent short film  
the fried rice was dry as well  
also notable is john baileys fine crisp beautifully colored cinematography and the great  
production design costumes by eiko ishioka who went on to do the memorable costumes fo  
r coppolas dracula for which she received a well deserved oscar  
great price also  
because both ears are occupied background is not distracting at all  
the mic is great  
not good when wearing a hat or sunglasses  
will be back again  
they have great dinners  
service was slow and not attentive  
nobody identifies with these characters because theyre all cardboard cutouts and stereot  
ypes or predictably reversestereotypes  
the kids play area is nasty  
this was my first and only vegas buffet and it did not disappoint  
i saw mirrormask last night and it was an unsatisfactory experience  
its a shame to see good actors like thomerson and james make a living in a mess like thi  
s  
the food was excellent and service was very good  
this battery is an excellent bargain  
our server was very nice and even though he looked a little overwhelmed with all of our  
needs he stayed professional and friendly until the end  
this movie is a solid example of a bad plot and a very very bad idea all the way  
my husband said she was very rude did not even apologize for the bad food or anything  
its like a really sexy party in your mouth where youre outrageously flirting with the ho  
ttest person at the party  
there is however some pretty good acting at least for this type of film  
this is such a fun and funny movie  
i do not know if this was emilio estevezs directorial debut but the pacing the interplay  
and development of the characters as well as some clever camera work surrounding the ch  
aracter estevez plays all suggest a natural eye  
total waste of time  
i have been to very few places to eat that under no circumstances would i ever return to  
and this tops the list  
all the characters in this film are tremendously well played  
the battery is unreliable as well as the service use antenna  
waitress was good though  
nice case feels good in your hands  
highly unprofessional and rude to a loyal patron  
just does not work  
i have had problems wit hit dropping signal and more  
i saw this movie and i thought this is a stupid movie  
gets a signal when other verizon phones wont  
i took back my money and got outta there  
the two main characters may be two of the most believable children i ever saw put on scr  
een  
service is quick and friendly

i checked everywhere and there is no feature for it which is really disappointing  
very satisfied with that  
it does not maintain a connection with the computer while it is on my lap  
this particular model would not work with my motorola q smartphone  
as always the evening was wonderful and the food delicious  
this is a good joint  
unfortunately it was not good  
soyo technology sucks  
if she had not rolled the eyes we may have stayed not sure if we will go back and try it  
again  
incredible  
someone should've invented this sooner  
i am glad i purchased it  
today is the second time i've been to their lunch buffet and it was pretty good  
similarly the delivery man did not say a word of apology when our food was minutes late  
so in a nutshell the restaurant smells like a combination of a dirty fish market and a  
sewer  
don't buy this product it fails  
works great when my cat attacked the phone he scratched the protective strip instead of  
destroying the screen  
you can not answer calls with the unit never worked once  
she was quite disappointed although some blame needs to be placed at her door  
now the pizza itself was good the peanut sauce was very tasty  
always a great time at dos gringos  
i'm still infatuated with this phone  
this place has it  
it was delicious  
talk about great customer service of course we will be back  
the sound is clear and the people i talk to on it are amazed at the quality too  
it was either too cold not enough flavor or just bad  
the delivery was on time  
i can barely ever hear on it and am constantly saying what  
they never brought a salad we asked for  
just spicy enough perfect actually  
there was no chemistry between ben affleck and sandra bullock in this film and i couldn't  
understand why he would consider even leaving his wife for this chick that he suppo  
sedly was knocked out by  
total letdown i would much rather just go to the camelback flower shop and cartel coffee  
my headset works just peachykeen  
however my girl was complain that some time the phone doesn't wake up like normal phone d  
oes  
then as if i hadn't wasted enough of my life there they poured salt in the wound by drawi  
ng out the time it took to bring the check  
the sides are delish mixed mushrooms yukon gold puree white corn beateous  
when achille and philippa beautifully sing a duet from don giovanni that perfectly descr  
ibes their situation in the movie you appreciate the subtle layers of this excellent fil  
m  
buttons are too small  
the bipolarity of the ruthless thug one minute a ruthless killer the next minute a luvs  
diaper commercial is completely unconvincing  
that being said for a phone the camera is very nice many cool effects to play with and v  
ideo is decent as well  
you'd have to have the iq of particularly stupid mollusk not to see that one coming  
bluetooth does not work phone locks up screens just flash up and now it just makes calls  
randomly while in my pocket locked  
i think not again  
i kept looking at the time and it had soon become minutes yet still no food  
internet is excruciatingly slow  
my colleague i now get great reception a little expensive but performance is great  
the film is well paced understated and one of the best courtroom documentaries i've seen  
  
all in all i think it was a good investment  
not only will it drain your player but may also potentially fry it  
great atmosphere friendly and fast service  
while you don't yet hear mickey speak there are tons of sound effects and music throughou  
t the film something we take for granted now but which was a huge crowd pleaser in

i love this device  
doesn't hold charge  
an awesome new look for fall  
coming here is like experiencing an underwhelming relationship where both parties can't wait for the other person to ask to break up  
buyer be very careful  
her lines seem to have been written by a fifteen year old though they are trying oh so so hard to sound like how a fifteen year old would really um you know well talk  
we won't be going back  
this was one of the worst films i have ever seen  
the noise shield is incredible  
if it were possible to give them zero stars they'd have it  
the food was very good and i enjoyed every mouthful an enjoyable relaxed venue for couples small family groups etc  
he also came back to check on us regularly excellent service  
very poor service  
your brain will attempt to shutdown as part of a primal impulse of self-preservation  
if you don't find it too bad as again the unit comes with one earpad only i would not recommend this to anyone  
bluetooth range is good a few days ago i left my phone in the trunk got a call and carried the conversation without a hitch  
i had the chicken pho and it tasted very bland  
there is nothing privileged about working/eating there  
battery lasts only a few hours  
avoid avoid avoid  
waited and waited and waited  
the soundtrack wasn't terrible either  
th century fox's road house is not only quite a silly noir but is an implausible unmitigated bore of a movie  
does not fit  
don't go here  
very disappointed  
my phone doesn't slide around my car now and the grip prevents my phone from slipping out of my hand  
from here on the widmark character turns unintentionally comical  
wi is just superb  
delicious and i will absolutely be back  
if you stay in vegas you must get breakfast here at least once  
as much as i'd like to go back i can't get passed the atrocious service and will never return  
my boyfriend and i came here for the first time on a recent trip to vegas and could not have been more pleased with the quality of food and service  
it was a good thing that the tickets only cost five dollars because i would be mad if i'd have paid to see this crap  
the food is not tasty at all not to say it's real traditional hunan style  
i'm terribly disappointed that this film would receive so many awards and accolades especially when there are far more deserving works of film out there  
we'd definitely go back here again  
then i watched it again two Sundays ago March 11th and i began to really enjoy it and this time i taped the entire thing  
i don't like this nokia either  
the story is also both funny and poignant at times  
the BT headset was such a disappointment  
so good i am going to have to review this place twice once here as a tribute to the place and once as a tribute to an event held here last night  
the greek dressing was very creamy and flavorful  
otherwise don't even waste your time on this  
this is a great phone  
anyways the food was definitely not filling at all and for the price you pay you should expect more  
nothing at all to recommend  
the food wasn't good  
case was more or less an extra that i originally put on but later discarded because it scratched my ear  
it's the best headset i have used  
it's a campy sort of film that's a joy to watch

i got home to see the driest damn wings ever  
food arrived quickly  
as a sushi lover avoid this place by all means  
timely shipment and quality product  
as for the mains also uninspired  
as for the service i thought it was good  
theres also enough hypocrisy in this film to make me vomit  
we are sending it back  
same evening him and i are both drastically sick  
we could not believe how dirty the oysters were  
i wear it everyday and it holds up very well  
i highly recommend this device to everyone  
however after about a year the fliptop started to get loose and wobbly and eventually my  
screen went black and i couldnt receive and place calls  
however the ear pads come off easily and after only one week i lost one  
weve have gotten a much better service from the pizza place next door than the services  
we received from this restaurant  
an hour seriously  
this place is pretty good nice little vibe in the restaurant  
not sure who was more lost the flat characters or the audience nearly half of whom walk  
ed out  
tied to charger for conversations lasting more than minutesmajor problems  
went in for happy hour great list of wines  
so there is no way for me to plug it in here in the us unless i go by a converter  
the camera really likes her in this movie  
im surprised this is a good quality car charger and theres not much reviews about it  
i am a fan of his this movie sucked really bad  
i have always used corded headsets and the freedom from the wireless is very helpful  
its a great tool for entertainment communication and data managementoh be sure to use ac  
tivesync for optimal data synchronization results  
battery life still not long enough in motorola razor vi  
very slow at seating even with reservation  
i love this bluetooth  
great place to eat reminds me of the little mom and pop shops in the san francisco bay a  
rea  
the heart attack grill in downtown vegas is an absolutely flatlined excuse for a restaur  
ant  
the loudspeaker option is great the bumpers with the lights is very appealing  
overall i wasnt very impressed with noca  
why are these sad little vegetables so overcooked  
the things that the four kids get themselves into is absolutely hilarious to watch  
so i bought about of these and saved alot of money  
unfortunately it did not work  
however here there was no decent acting action or location work to balance things up  
still waiting im sure this item would work well if i ever recieve it  
it was absolutely amazing  
initially the local sites in the film which was filmed here in buffalo intrigued me  
my side greek salad with the greek dressing was so tasty and the pita and hummus was ver  
y refreshing  
conclusion i loved it  
poor quality  
with great sound effects and impressive special effects i cant recommend this movie eno  
ugh  
call me a nut but i think this is one of the best movies ever  
great character actors telly savalas and peter boyle  
hour minutes of sheer tedium melodrama and horrible acting a mess of a script and a si  
nking feeling of good lord what were they thinking  
lots of holes in the script  
its like a bad two hour tv movie  
now imagine that every single one of those decisions was made wrong  
the dialogue is atrocious  
the acting is beyond abysmal  
everything stinks  
trouble is the writing and directing make it impossible to establish those things that m  
akea movie watchable like character story theme and so on  
worse theres an incredibly weak subplot thrown in that follows a little band of latterda

y mansionites as they go after a reporter whos working on a story on the anniversary of the killings  
its dumb and pointless and a complete waste of time  
in short dont bother with this movie  
i wont spoil it but the ending is pretty amazing  
the best scene in the movie is at the end but i wont spoil it  
if there was ever an indication of a writer and a directors ability to meld two highly volatile temperaments into a seamless union of creativity then this is it  
the result is a powerhouse achievement made more timely now perhaps because of our cultures disturbing fascination with celebrity and its distorted interpretations of fame  
a film not easily forgotten  
but kevin spacey is an excellent verbal tsunami as buddy ackerman and totally believable because he is a great actor  
the scripting of the subtle comedy is unmatched by any movie in recent years  
the characters are interesting even if a bit predictable  
highly recommended for all ages although the younger set will probably not appreciate some of the more subtle references they will certainly appreciate one galley scene in particular  
great movie  
also the story and acting were weak  
at around pm i bought it at around pm i started to watch at around pm i fast forwarded the remaining film to see if there was anything left watchable for a human being with a brain but there wasnt  
either way it sucks  
the script is horrendously stupid  
the story starts too fast with absolutely no suspense or buildup in the slightest  
everything captain howdy says is either laughable or just plain stupid  
what the hell kind of crap is that  
then theres the plot holes  
you could drive a semi truck into these holes  
linda cardellini is the only thing good in this film  
shes poised and amazing  
dee snider just plain sucks  
he cant act one of the least scary villains i have ever seen he cant write did he write this damn movie in his sleep  
i was bored throughout the whole damn thing  
the acting sucks the music sucks the script sucks the pacing sucks the special fx suck the directing sucks basically this movie sucks  
this film tries to be a serious and sophisticated thrillerhorror flick and it fails miserably  
this is probably one of the least effective and utterly unoriginal films i have ever seen in my entire life  
a piece of cinematic garbage captured on celluloid  
avoid at any and all costs  
at any rate this film stinks its not funny and fulci should have stayed with giallo and supernatural zombie movies  
avoid this film at all costs  
i dont know what happened in season five what a mess  
the only consistent thread holding the series together were the amazing performances of leni parker and anita laselva as the two taelons in quiet ideological conflict  
now this is a movie i really dislike  
its one of the most boring horror movies from the s mainly because it starts slow and centers in a boring atmosphere  
the puppets look really cheesy not in a good way like in the puppet masters flicks  
the story is lame not interesting and never really explains the sinister origins of the puppets  
there arent death scenes like in previous movies and the fx are terrible  
i felt asleep the first time i watched it so i can recommend it for insomniacs  
the fact is this film is a wonderful heartwarming tale about two people chasing their dreams  
the best part about nurse betty is its unpredictability  
crust is not good  
overall i was very disappointed with the quality of food at bouchon  
i paid the bill but did not tip because i felt the server did a terrible job  
this place is not worth your time let alone vegas  
again no plot at all

i have to say that this film was excellently produced and tops the ratings as a typical sci fi film  
the sound quality is excellent as well  
the success of the film depends on the casting of sydney greenstreet as the alexander ya rdley character  
im not eating here  
the directing is sloppy at best  
we got sitting fairly fast but ended up waiting minutes just to place our order another minutes before the food arrived  
great product and price  
that movie was bad  
well packaged arrived on time and works as intended  
both actors truly understand and become their particular character delivering a convincing sincere performance  
i had the opportunity today to sample your amazing pizzas  
the lead man is charismaftee  
this place is horrible and way overpriced  
im probably one of the few people to ever go to ians and not like it  
omg i felt like i had never eaten thai food until this dish  
everything on the menu is terrific and we were also thrilled that they made amazing accommodations for our vegetarian daughter  
the fries were not hot and neither was my burger  
i love this cable it allows me to connect any miniusb device to my pc  
i wish i could return the unit and get back my money  
i bought this phone as a replacement for my startac and have regretted it since  
the calls drop the phone comes on and off at will the screen goes black and the worst of all it stops ringing intermittently  
a bit predictable  
they could serve it with just the vinaigrette and it may make for a better overall dish but it was still very good  
tom wilkinson broke my heart at the end and everyone elses judging by the amount of fumbling for hankies and hands going up to faces among males and females alike  
if you see it you should probably just leave it on the shelf  
if you like a loud buzzing to override all your conversations then this phone is for you  
i highly doubt that anyone could ever like this trash  
it is not good  
i guess maybe we went on an off night but it was disgraceful  
delete this film from your mind  
excellent product for the price  
will go back next trip out  
very clear quality sound and you dont have to mess with the sound on your ipod since you have the sound buttons on the headset  
best headset ever  
the feel of the dining room was more college cooking course than high class dining and the service was slow at best  
perfect for someone me who only likes beer ice cold or in this case even colder  
item does not match picture  
i let my girlfriend talk me into seeing this bad idea we both hated it  
i wasnt expecting oscar material but this  
hard to judge whether these sides were good because we were grossed out by the melted styrofoam and didnt want to eat it for fear of getting sick  
an absolute must visit  
you can even take self portraits with the outside exterior display very cool  
i liked it  
i found this move beautiful enjoyable and uplifting  
still i do like this movie for its empowerment of women theres not enough movies out there like this one  
this is one of the worst sandra bullock movie since speed but not quite that bad  
worked very well paired with a treow and as a skype headset on my pc using a usb bluetooth transceiver  
at a time when it seems that film animation has been dominated by disneypixars cgi masterpieces it is both refreshing and comforting to know that miyazaki is still relying on traditional handdrawn animation to tell his charming and enchanting stories  
excellent bluetooth headset  
all in all its an insult to ones intelligence and a huge waste of money  
drinks took close to minutes to come out at one point

the design is very odd as the ear clip is not very comfortable at all  
this place deserves no stars  
id rather eat airline food seriously  
their frozen margaritas are way too sugary for my taste  
returned hours later  
great food for the price which is very high quality and house made  
my phone sounded ok not great ok but my wifes phone was almost totally unintelligible  
she couldnt understand a word being said on it  
after receiving and using the product for just days it broke  
the service was terrible though  
this is was due to the fact that it took minutes to be acknowledged then another minutes to get our food and they kept forgetting things  
the battery runs down quickly  
the cow tongue and cheek tacos are amazing  
not loud enough and doesnt turn on like it should  
of all the dishes the salmon was the best but all were great  
the lighting is awful  
the cg opening sequence in space looked like it could have been created on microsoft slideshow for gods sake  
good product good seller  
everything about this product is wrong first  
ample portions and good prices  
perhaps my phone is defective but people cannot hear me when i use this  
this place is disgusting  
it presents a idyllic yet serious portrayal of the ups and downs of the characters lives

if you havent choked in your own vomit by the end by all the cheap drama and worthless dialogue youve must have bored yourself to death with this waste of time  
i wasted my little money with this earpiece  
i received it quickly and it works great  
i am sorry i made this purchase  
the only redeeming quality of the restaurant was that it was very inexpensive  
now you know why i gave it a  
i waited and waited  
what a mistake that was  
then i had to continue pairing it periodically since it somehow kept dropping  
that just screams legit in my books thats also pretty rare here in vegas  
so they performed  
ill be driving along and my headset starts ringing for no reason  
better than youd expect  
hell no will i go back  
i dont know exactly what it is about this movie but we latched on to this endearing movie and it has become a special part of our familys memories  
there was so much hype over this phone that i assumed it was the best my mistake  
the food is delicious and just spicy enough so be sure to ask for spicier if you prefer  
it that way  
special mention should be made of the superb music score and sound effects which are an integral element in helping to make this such a memorable and enjoyable cartoon  
insults profound deuchebaggery and had to go outside for a smoke break while serving just to solidify it  
i have two more years left in this contract and i hate this phone  
the awful dialogue and hopeless overacting by everyone who gets shot top off a real waste of space and time  
its as continuously beautiful to look at as a bertolucci but the relationships here are more convincing and the narrative more engaging than some of that masters work  
how stupid is that  
so i had to take the battery out of the phone put it all back together and then restart it  
basically the service was very bad  
i plugged it in only to find out not a darn thing worked  
very very disappointed ordered the big bay plater  
i contacted the company and they told me that although the unit was still under warranty if i couldnt produce my receipt i was out of luck  
attempting artiness with black white and clever camera angles the movie disappointed became even more ridiculous as the acting was poor and the plot and lines almost nonexistent

id say that would be the hardest decision honestly all of ms dishes taste how they are s  
upposed to taste amazing  
victor mclaglen was even bad and brian donlevy was almost unrecognizable  
the opening sequence of this gem is a classic and the cat n mouse games that follow are  
a delight to watch  
the script looks as if only a rough draft was written and shooting began before a finish  
ed script was completed  
in short this was a monumental waste of time and energy and i would not recommend anyon  
e to ever see this film  
not too screamy not too masculine but just right  
you get what you pay for i guess  
setup went very smoothly  
this is one of the better buffets that i have been to  
macbeth jason connery moved me to tears with his final monolog out brief candle outhe ga  
ve the sphere of moral decay and dark forces a human face which makes it the more intere  
sting  
out of stars  
con spotty service  
what this film lacks is a convincing script  
well just if you keep thinking how bad it is  
battery life is also great  
it definitely was not as good as my s  
my mother and brother had to do thiswhen i saw robert ryan portraying this type of man i  
t was a very good imitation of this type of individual and i was impressed  
we literally sat there for minutes with no one asking to take our order  
an instant classic with a great soundtrack and a catchy song during the ending credits  
i had verizon years ago and really liked their service  
it is rare when a filmmaker takes the time to tell a worthy moral tale with care and lov  
e that doesnt fall into the trap of being overly syrupy or over indulgent  
and service was super friendly  
the ripped banana was not only ripped but petrified and tasteless  
i just dont know how this place managed to served the blandest food i have ever eaten wh  
en they are preparing indian cuisine  
the volume for the ringer is real good you have choices how loud  
this is hands down the best phone ive ever had  
its a piece of crap  
this is one of the best bars with food in vegas  
horrible dont waste your time and money  
my breakfast was perpared great with a beautiful presentation of giant slices of toast  
lightly dusted with powdered sugar  
useless phone simply deaf  
i tried talking real loud but shouting on the telephone gets old and i was still told it  
wasnt great  
the one big drawback of the mp player is that the buttons on the phones front cover that  
let you pause and skip songs lock out after a few seconds  
they do not last forever but is not overly expensive to replaceeasy to operate and the s  
ound is much better than others i have tried  
after the first charge kept going dead after minutes  
it clicks into place in a way that makes you wonder how long that mechanism would last  
will not be back  
treeo and tmobile refused to replace it again and forced me to buy another phone without  
any kind of upgrade discount  
it is shameful  
this is a simple little phone to use but the breakage is unacceptable  
nice quality build unlike some cheap s out there  
nice solid keyboard  
point your finger at any item on the menu order it and you wont be disappointed  
its just adorable seeing mickey playing turkey in the straw in a highly imaginative if o  
ccasionally cruel way  
the explosion of the gas tanks at the end was just as awful  
the least said about the acting the better  
very true to shakespeare and a must for all shakespeare fans  
not nearly as good looking as the amazon picture makes it look  
this movie is wellbalanced with comedy and drama and i thoroughly enjoyed myself  
theywere golden and delicious  
so far so good

i know that sounds funny but to me it seemed like sketchy technology that wouldnt work wellwell this one works great  
the movie showed a lot of florida at its best made it look very appealing  
its extremely slow and takes forever to do anything with it  
the nokia ca usb cable did not work with my phone  
works for me  
it was so boring  
camera color balance is awful  
the movie is full of wonderful dancing hence the title  
just reading on the specs alone makes you say wow  
im in az all the time and now have my new spot  
this item is fantastic and works perfectly  
overall i like this place a lot  
this movie is a good and humorous comment on life in  
verizon tech support walked my through a few procedures none of which worked and i ended up having to do a hard reset wiping out all my data  
you also cannot take pictures with it in the case because the lense is covered  
they refuse to refund or replace  
on the ground right next to our table was a large smeared beensteppedinandtrackedeverywhere pile of green bird poop  
this film and i use that word loosely is an insult to the moviegoing public  
i used bitpim a free program you can find on the internetto transfer data to the phone  
the price of the cable was excellent  
we also ordered the spinach and avocado salad the ingredients were sad and the dressing literally had zero taste  
i put the latest os on it vg and it now likes to slow to a crawl and lock up every once in a while  
the plot has more holes than a pair of fishnet stockings and the direction and editing is astonishingly ham fisted  
the construction of the headsets is poor  
despite how hard i rate businesses its actually rare for me to give a star  
i believe the screenwriter did a good job of tying up the loose ends  
battery is holding up well  
nice ambiance  
a usable keyboard actually turns a pda into a realworld useful machine instead of just a neat gadget  
the ear buds only play music in one ear  
great pork sandwich  
maybe there would be a reasonable explanation for this atrocity  
cant say enough good things about this place  
if you love death and decay and shakespears lyrics this is the one  
technically the film is well made with impressive camerawork solid acting and effective music from riz ortolani particularly good is a recurring unaccompanied female vocal that sounds like its coming from a distant hill  
i was sitting in my vehicle with the cradle on my belt and the headset lost signal  
after my phone got to be about a year old its been slowly breaking despite much care on my part  
elias koteasjack palance play good roles angelina is hot and gets nakedbilly drago appears in this and is cool as usual a cameo by sven ole thorsen helps make this a very enjoyable movie with good acting and a decent budget  
wont work right or atleast for me  
i was able to do voice dialing in the car with no problem  
it was way over fried  
however paul schrader has indeed made a film about mishima that is both superb complex

this film offers many delights and surprises  
clear skype calls long battery life long range  
those phones are working just fine now  
loved the casting of jimmy buffet as the science teacher  
comfortable fit you need your headset to be comfortable for at least an hour at a time if not for an entire day  
will order from them again  
food was really boring  
their network coverage in los angeles is horrible  
great pizza and salads  
overall the film is interesting and thoughtprovoking

then a few days later the a puff of smoke came out of the phone while in use  
i really like this product over the motorola because it is allot clearer on the ear piece and the mic  
the bathrooms are clean and the place itself is well decorated  
but the acting even that of such professionals as drago and debbie rochon was terrible the directing worse perhaps contributory to the former the dialog chimplike and the camera work barely tolerable  
i wont say any more i dont like spoilers so i dont want to be one but i believe this film is worth your time  
i was seated immediately  
iam very pleased with my purchase  
not good enough for the price  
its fits like a glove and is strong secure and durable  
light weight i hardly notice it is there  
my order was not correct  
the worst phone from samsung crap this crappy samsung e is the worst i have ever seen  
the waitresses are very friendly  
this place is way too overpriced for mediocre food  
in an interesting part of town this place is amazing  
the staff is friendly and the joint is always clean  
i am also very happy with the price  
this results in the phone being either stuck at max volume or mute  
these are the central themes of the film and they are handled ineptly stereotypically and with no depth of imagination  
nothing special  
im glad i found this product on amazon it is hard to find it wasnt high priced  
the only thing i did like was the prime rib and dessert section  
i love the ringtones because they are so upbeat  
its close to my house its lowkey nonfancy affordable prices good food  
but when i check voice mail at night the keypad backlight turns off a few seconds into the first message and then im lost  
painful on the ear  
if you look for authentic thai food go else where  
dont waste your money and time  
i didnt want the clip going over the top of my ear causing discomfort  
i know that jim oconnor was very energetic and that nobody could be as much as him but george was well dull  
service is also cute  
my only problem is i thought the actor playing the villain was a low rent michael ironside  
poor construction  
its so stupid to have to keep buying new chargers car chargers cradles headphones and car kits every time a new phone comes out  
i started this review with two stars but im editing it to give it only one  
i keep watching it over and over  
battery is terrible  
the selection was probably the worst ive seen in vegas there was none  
overall i dont think that i would take my parents to this place again because they made most of the similar complaints that i silently felt too  
the food is about on par with dennys which is to say not good at all  
this is an excellent tool especially when paired with your phones autoanswer  
if you plan to use this in a car forget about it  
it shouldnt take 10 min for pancakes and eggs  
yes its that bad  
even if you love bad movies do not watch this movie  
my fella got the huevos rancheros and they didnt look too appealing  
appetite instantly gone  
it was a pale color instead of nice and char and has no flavor  
cinematography noteworthy including fine views of barcelona and its famed gaudi towers  
this is truly an art movie it actually has a lot of art in it  
not a pleasant voyage of self discovery  
i have to jiggle the plug to get it to line up right to get decent volume  
at no point in the proceedings does it look remotely like america  
everything about it is fine and reasonable for the price ie  
the fries were great too  
add betty white and jean smart and you have a great cast everyone played their parts re

ally well  
overall i like there food and the service  
by this time our side of the restaurant was almost empty so there was no excuse  
im happy about this purchase good quality and low price  
i couldnt take them seriously  
this was like the final blow  
an hour and a half i wish i could bring back  
they dropped more than the ball  
the result is a film that just dont look right  
we loved the biscuits  
in conclusion i will not bother with this movie because a volcano in los angeles is nothing but nonsense  
the roast beef sandwich tasted really good  
i posted more detailed comments under the grey or black phone but i have the fire red and its a great color  
as a european the movie is a nice throwback to my time as a student in the s and the experiences i had living abroad and interacting with other nationalities although the circumstances were slightly different  
i really liked that  
terrible management  
pretty piece of junk  
i have bought this nokia cell phone a few weeks ago and it was a nightmare  
good service very clean and inexpensive to boot  
as many people complained i found this headsets microphone was very weak  
for that price i can think of a few place i would have much rather gone  
i received my orders well within the shipping timeframe everything was in good working order and overall i am very excited to have this source  
both the hot sour the egg flower soups were absolutely stars  
left very frustrated  
love this headset  
the vegetables are so fresh and the sauce feels like authentic thai  
third the cheese on my friends burger was cold  
whatever prompted such a documentary is beyond me  
this place is awesome if you want something light and healthy during the summer  
the aerial scenes were well done  
the service was not up to par either  
but the duet between the astronaut and his doctor at the beginning of the movie is a perfect exchange if one considers that this movie was made well into the cold war and the astronaut's biggest fear is that he has crashed in the ussr  
nothing new there  
it has everything i need and i couldnt ask for more  
these were so good we ordered them twice  
tom wilkinsons character is a man who is not prepared for the ordeal that is about to begin but he takes the matter in hand as the story progresses and this great actor gives a performance that makes you feel the characters anguish and suffering  
and the sound quality is great  
the script is was there a script  
the pleather case doesnt fit  
almost everyone involved must be return to school acting is utterly predictable and bad  
script is pile of garbage all round  
the microphone also works well but according to people i have called it applifies everything  
the service was outshining i definitely recommend the halibut  
the potatoes were like rubber and you could tell they had been made up ahead of time being kept under a warmer  
their rotating beers on tap is also a highlight of this place  
great case and price  
just dont know why they were so slow  
it doesnt work in europe or asia  
really good product  
im super pissed  
best ive found so far ive tried other bluetooths and this one has the best quality for both me and the listener as well as ease of using  
but other than that the movie seemed to drag and the heroes didnt really work for their freedom  
finally after three or four times the spring of the latch broke and i could not use it a

ny longer on the visor  
one of the worst shows of all time  
nice headset priced right  
you have to hold the phone at a particular angle for the other party to hear you clearly  
worst phone ever  
its not user friendly  
this product is ideal for people like me whose ears are very sensitive  
bought mainly for the charger which broke soon after purchasing  
im not sure how long we stood there but it was long enough for me to begin to feel awkwardly out of place  
with the originality and freshness of the first movie now spent this remake had little else to offer

the structure of this film is easily the most tightly constructed in the history of cinema  
i can think of no other film where something vitally important occurs every other minute

in other words the content level of this film is enough to easily fill a dozen other films

how can anyone in their right mind ask for anything more from a movie than this  
its quite simply the highest most superlative form of cinema imaginable  
yes this film does require a rather significant amount of puzzlesolving but the pieces fit it together to create a beautiful picture

this short film certainly pulls no punches  
graphics is far from the best part of the game  
this is the number one best thing game in the series  
it deserves strong love

it is an insane game  
there are massive levels massive unlockable characters its just a massive game  
waste your money on this game

this is the kind of money that is wasted properly  
actually the graphics were good at the time  
today the graphics are crap

as they say in canada this is the fun game aye  
this game rocks

buy it play it enjoy it love it  
its pure brilliance

this was a flick doomed from its conception

the very idea of it was lame take a minor character from a mediocre pg film and make a complete nonsequel while changing its tone to a pgrated family movie

i wasnt the least bit interested

not only did it only confirm that the film would be unfunny and generic but it also managed to give away the entire movie and im not exaggerating every moment every plot point every joke is told in the trailer

but its just not funny

but even the talented carrell cant save this

his costars dont fare much better with people like morgan freeman jonah hill and ed helm s just wasted

the story itself is just predictable and lazy

the only real effects work is the presence of all the animals and the integration of those into the scenes is some of the worst and most obvious bluegreenscreen work ive ever seen

but whatever it was that cost them so much it didnt translate to quality thats for sure

the film succeeds despite or perhaps because of an obviously meagre budget

im glad the film didnt go for the most obvious choice as a lesser film certainly would have

in addition to having one of the most lovely songs ever written french cancan also boasts one of the cutest leading ladies ever to grace the screen

its hard not to fall headoverheels in love with that girl

on the negative its insipid enough to cause regret for another hours of life wasted in front of the screen

long whiny and pointless

but i recommend waiting for their future efforts let this one go

excellent cast story line performances

totally believable

anne heche was utterly convincing

sam shepard's portrayal of a gung ho marine was sobering  
i sat riveted to the tv screen  
all in all i give this one a resounding out of  
i do think tom hanks is a good actor  
i enjoyed reading this book to my children when they were little  
i was very disappointed in the movie  
one character is totally annoying with a voice that gives me the feeling of fingernails  
on a chalkboard  
there is a totally unnecessary trainroller coaster scene  
there was absolutely no warmth or charm to these scenes or characters  
this movie totally grates on my nerves  
the performances are not improved by improvisation because the actors now have twice as  
much to worry about not only whether they're delivering the line well but whether the li  
ne itself is any good  
and quite honestly often it's not very good  
often the dialogue doesn't really follow from one line to another or fit the surroundings

it crackles with an unpredictable youthful energy but honestly i found it hard to follo  
w and concentrate on it meanders so badly  
there are some generally great things in it  
i wouldn't say they're worth hours of your time though  
the suspense builders were good just cross the line from g to pg  
i especially liked the noncliche choices with the parents in other movies i could predic  
t the dialog verbatim but the writing in this movie made better selections  
if you want a movie that's not gross but gives you some chills this is a great choice  
alexander nevsky is a great film  
he is an amazing film artist one of the most important whoever lived  
im glad this pretentious piece of s didn't do as planned by the dodge stratus big shots i  
t's gonna help movie makers who aren't in the very restrained movie business of quebec  
the budget was evidently very limited  
lange had become a great actress  
the food came out at a good pace  
the nano stated it my son was disappointed  
the reception has been generally good  
good food good service  
i'll even say it again this is torture  
terrible phone holder  
if there was ever a movie that needed wordofmouth to promote this is it  
all the bread is made inhouse  
overall a great experience  
a very good film indeed about great and unconditional love  
i recommend igo to anyone with different brand cell phonesmp players in the family  
reversible plug works great  
the worst piece of crap ever along with the verizon customer service  
the cashier had no care what so ever on what i had to say it still ended up being wayyy  
overpriced  
i saw it as a child on tv back in when it was the stranger and i loved it  
of course the footage from the s was grainy but that only enhanced the film  
i got it because it was so small and adorable  
do not make the same mistake as me  
must have been an off night at this place  
the bose noise cancelling is amazing which is very important for a nyc commuter  
it fits so securely that the ear hook does not even need to be used and the sound is bet  
ter directed through your ear canal  
service is perfect and the family atmosphere is nice to see  
my rating just out of  
if you want a real scare rent this one  
this place deserves one star and has to do with the food  
this is essentially a communications tool that does not communicate  
the chipotle ranch dipping sause was tasteless seemed thin and watered down with no heat  
it was horrible  
just consider the excellent story solid acting and look of the film as added bonuses  
she is as lovely as usual this cutie  
don't waste your time watching this rubbish nonresearched film  
we loved the place  
one of the most disappointing aspects is the lack of notable gore

i know he was a contract player with little control over his scripts but the acting was as bad as the script  
the scenery that the two daughters paint and photograph are beautiful  
you cant beat that  
the sweet potato tots were good but the onion rings were perfection or as close as i have had  
do not buy if you want to use the holster  
it kept getting worse and worse so now im officially done  
now this dish was quite flavourful  
razr battery good buy  
the cutouts and buttons are placed perfectly  
good servicecheck  
this device is great in several situations  
constantine gives everything the right intensity and seems to have a good understanding of the underlying psychological motivations  
needless to say i wasted my money  
however the keypads are so tinny that i sometimes reach the wrong buttons  
it was an inexpensive piece but i would still have expected better quality  
the buffet at bellagio was far from what i anticipated  
i had to walk out of the theatre for a few minutes just to get some relief  
unless youre just out to visually collect all extant films of austens work you can skip this one  
not a weekly haunt but definitely a place to come back to every once in a while  
it did not work in my cell phone plug i am very up set with the charger  
the service was great even the manager came and helped with our table  
this gets a out of simply because theres nothing lower  
the movie in movie situations in the beginning and through the game that is played with her by the acting coach are fascinating  
it is so small and you dont even realize that it is there after a while of getting used to it  
unfortunately any virtue in this films production work was lost on a regrettable script

very well made and fits my surefire gx perfectly  
i was very pleased to see that i could replace my well traveled swivel holster for my blackberry flip  
the burritos blah  
the writer gorman bechard undoubtedly did his homework because all references are industry and characterage appropriate  
rude inconsiderate management  
how can you call yourself a steakhouse if you cant properly cook a steak i dont understand  
the pizza tasted old super chewy in not a good way  
this place was such a nice surprise  
his losing his marbles so early in the proceedings is totally implausible and unconvincing  
excellent starter wireless headset  
i probably would not go here again  
if this premise sound stupid thats because it is  
sprint terrible customer service  
and if that isnt enough of a mess of a movie for you the picture is also marred with a constant use of studio sets and indoor exteriors  
i got to enjoy the seafood salad with a fabulous vinaigrette  
i believe every one should see this movie as i think few people outside of south africa understand its past and what is being attempted in the truth and reconciliation process

there was hardly any meat  
this place is not quality sushi it is not a quality restaurant  
the accompanied software is almost brilliant  
audio quality is poor very poor  
doesnt last long  
this is a great deal  
it is a true classic  
this phone is pretty sturdy and ive never had any large problems with it  
i found the product to be easy to set up and use  
it is perfect for a sitdown family meal or get together with a few friends  
the only very disappointing thing was there was no speakerphone

i purchased this and within days it was no longer working  
as for the killer dont expect anything original or even remotely frightening  
this is just a great movie  
never again will i be dining at this place  
the basic premise is wasted since it is sidelined by the inexplicable focus on the documentary crew  
buy a different phone but not this  
well im satisfied  
four stars for the food the guy in the blue shirt for his great vibe still letting us in to eat  
this movie now joins revenge of the boogeyman and zombies as part of the hellish trinity of horror films  
needless to say we will never be back here again  
ive never been treated so bad  
i wasnt really impressed with strip steak  
i even fully charged it before i went to bed and turned off blue tooth and wifi and noticed that it only had left in the morning

thumbs up to this seller  
the best example of how dumb the writing is when its established that you can turn the zombie students back into humans by removing a necklace containing a piece of the meteorite  
phone is sturdy as all nokia bar phones are  
you wont regret it  
but it picked up speed and got right to the point  
if you havent gone here go now  
it is very comfortable to wear as well which is probably the most important aspect about using a case  
this movie has a cutting edge to it  
aailiyah was pretty good as akasha in places compelling her first entrance and mini dance scene  
the charger worked for about a week and then completely stopped charging my phone  
we received a white colored battery that goes dead after a couple hours the original used to last a week but still lasts longer than the replacement  
this is one of the best movies out there that shows such strong sibling bond for each other  
the songs were the best and the muppets were so hilarious  
they will customize your order any way youd like my usual is eggplant with green bean stir fry love it  
great food and great service in a clean and friendly setting  
im big fan of rpg games too but this movie its a disgrace to any self respecting rpg there is  
i as well wouldve given godfathers zero stars if possible  
food was below average  
dont waste your money  
great for using with your home stereo  
one of the few places in phoenix that i would definitely go back to again  
the servers are not pleasant to deal with and they dont always honor pizza hut coupons  
i only hear garbage for audio  
this film has no redeeming features  
no buyers remorse on this one  
linksys should have some way to exchange a bad phone for a refurb unit or something  
its well designed and very sharp the blue is a very nice color  
this is the place where i first had pho and it was amazing  
much less than the jawbone i was going to replace it with  
but i dont like it  
it worked very well  
awkward to use and unreliable  
the food amazing  
worse of all he humiliated his worker right in front of me bunch of horrible name calling  
do not buy for d wrongly advertised for d  
all of the tapas dishes were delicious  
think it over when you plan to own this one this sure is the last moto phone for me  
poor talk time performance  
worst customer service ever

i loved this movie it was a great portrayal of a family who had its share of ups and downs but in the end they knew that special love they had for each other  
i have eaten here multiple times and each time the food was delicious  
but i thought his acting was skilled  
a pretty good product  
join the club and get awesome offers via email  
cumbersome design  
it was packed  
always a pleasure dealing with him  
both films are terrible but to the credit of the version it was watchable  
none of the three sizes they sent with the headset would stay in my ears  
would not go back  
its still wild stuff though and is highly recommended to fans of giallo cinema  
it looked like a wonderful story  
this place has a lot of promise but fails to deliver  
this was such an awesome movie that i bought it off of ebay  
brilliance indeed  
the phone takes forever to charge like 20 hours literally  
it is super charged up for use as a small hybrid palmtop/camera/cellphone and excels in those roles  
however the ringtones are not the best and neither are the games  
i found a six inch long piece of wire in my salsa  
the script is a big flawed mess  
arrived quickly and much less expensive than others being sold  
problem is that the ear loops are made of weak material and break easily  
very good quality though  
i received my supposedly new motorola and apparently there was not a match between the phone and the charger  
def coming back to bowl next time  
still its quite interesting and entertaining to follow  
wow loved this place  
and then tragedy struck  
i cant tell you how disappointed i was  
love this place hits the spot when i want something healthy but not lacking in quantity or flavor  
and i really did find them funny  
this case has passed the one year mark and while it shows signs of wear it is functional  
it sure does beat the nachos at the movies but i would expect a little bit more coming from a restaurant  
it was too predictable even for a chick flick  
it was also the right balance of war and love  
a world better than a lot of the garbage in the theatres today  
i did not expect this to be so good  
nice blanket of moz over top but i feel like this was done to cover up the subpar food  
this place is great  
not much flavor to them and very poorly constructed  
it took over 10 min to get their milkshake which was nothing more than chocolate milk  
the worst one of the series  
their daily specials are always a hit with my group  
the meat was pretty dry i had the sliced brisket and pulled pork  
we asked for the bill to leave without eating and they didnt bring that either  
this pda rocks  
the best phone in market  
the sangria was about half of a glass wine full and was ridiculous  
performed awful muffled tinny incoming sound and severe echo for those on the other end of the call  
very serious spoilers this movie was a huge disappointment  
hayao miyazakis latest and eighth film for studio ghibli kake no ue no ponyo ponyo on the cliff by the sea is a wonderfully fun and imaginative look at childhood  
ryans bar is definitely one edinburgh establishment i wont be revisiting  
this place is hands down one of the best places to eat in the phoenix metro area  
his acting alongside olivia de havilland was brilliant and the ending was fantastic  
it is light easy to use and has very clear reception and transmission  
worst service to boot but that is the least of their worries  
very disappointing performance

i can hear while im driving in the car and usually dont even have to put it on its loudest setting  
it is unusable in a moving car at freeway speed  
everything was fresh and delicious  
excellent sound battery life and inconspicuous to boot  
echo problem very unsatisfactory  
i own one of these cases and would order another  
i like design and look of jabra behind the ear headsets and it is pretty comfortable to wear hours a day without pain in the ear  
i bought it for my mother and she had a problem with the battery  
hot dishes are not hot cold dishes are close to room temp i watched staff prepare food with bare hands no gloves everything is deep fried in oil  
sound quality on both ends is excellent i use headset to call my wife and ask my wife to use headset to call me  
only had this a month but it's worked flawlessly so far  
waaaaaayyyyyyyyyyy over rated is all i am saying  
down the drain  
new battery works great in phone  
i ate there twice on my last visit and especially enjoyed the salmon salad  
even in my bmw series which is fairly quiet i have trouble hearing what the other person is saying  
this item is great installed it let it charge up overnight and it has been working good every since with no problems  
friends pasta also bad he barely touched it  
kathy bates is wonderful in her characters subtle desperation and escapism a variation on her character in at play in the fields of the lord  
over rated  
i am not a filmmaker nor am i a director but i would hide my head in the sand if i spent whatever amount of money and time on this movie  
lewis blacks considerable talent is wasted here too as he is at his most incendiary when he is unrestrained which the pg rating certainly wont allow  
crisp and clear  
see both films if you can  
not a good item it worked for a while then started having problems in my auto reverse tape player  
they work about 2 weeks then break  
the films sole bright spot was jonah hill who will look almost unrecognizable to fans of the recent superbud due to the amount of weight he lost in the interim  
first of all it doesnt wear well  
as i said above pretty useless  
later i found myself lost in the power of the film  
the ngage is still lacking in earbuds  
overall i would recommend this phone over the new walkman  
this is an extraordinary film  
this place should honestly be blown up  
the only place good for this film is in the garbage  
just what i wanted  
but now i was completely grossed out  
food was great and so was the service  
not tasty and the texture was just nasty  
and those baby owls were adorable  
i have used several phones in two years but this one is the best  
the plastic breaks really easy on this clip  
i cant see how this movie can be an inspiration to anyone to come out or overcome fear and rejection  
the acting is like watching wooden puppets moving around and reading from a book thats how bad it is  
i have purchased these for both family and friends and all enjoy their clarity and ease of use  
but she is still a bad actress repeating her robotic face moves in each of her pictures  
  
we wont be going back anytime soon  
i cant use this case because the smell is disgusting  
it showed exactly how the government and the scientist argued for humanity and the reasons of the gadget  
everything is appalling

my boyfriend tried the mediterranean chicken salad and fell in love  
i was hoping for more  
the selection of food was not the best  
a standout scene  
the presentation of the food was awful  
extremely tasty  
prosgood camera very nice pictures also has cool styles like black and white and more  
the speaker is of low quality so as making the ring tones sound very cheap  
its too bad that everyone else involved didnt share crowes level of dedication to quality  
for if they did wed have a far better film on our hands than this subpar mess  
the best place in vegas for breakfast just check out a sat or sun  
del taco is pretty nasty and should be avoided if possible  
restored my phone to like new performance  
but it does get better reception and clarity than any phone ive had before  
this totally unfunny movie is so over the top and pathetic and unrealistic that throughout the whole minutes of utter torture i probably looked at my watch about times  
best tacos in town by far  
much better than the hard plastic cases  
it was so cool  
the majority of the logitech earbud headsets failed  
i loved it  
the sound quality is good and functionality is awesome  
this does not fit the palm tungsten e and it broke the first time i tried to plug it in  
to summarize the food was incredible nay transcendant but nothing brings me joy quite like the memory of the pneumatic condiment dispenser  
poor product  
my ribeye steak was cooked perfectly and had great mesquite flavor  
i was deeply impressed with the character he played  
absolutel junk  
owners are really great people  
i could barely stomach the meal but didnt complain because it was a business lunch  
lordy the khao soi is a dish that is not to be missed for curry lovers  
sweetest phone  
food was delicious  
good show samsung  
lets start with all the problems the acting especially from the lead professor was very very bad  
best of luck to the rude and noncustomer service focused new management  
everyone is very attentive providing excellent customer service  
i have had tmobile service for or years now and i am pretty happy with it  
its very convenient and simple to use gets job done makes the car ride so much smoother  
the replacement died in a few weeks  
service is friendly and inviting  
it was a bit too sweet not really spicy enough and lacked flavor  
vivian schilling did an excellent job with the script  
its just painful  
great no problems at all  
my friend did not like his bloody mary  
sending it back  
i guess i liked the details of his dysfunction he was believable  
but now that it is out of warranty the same problems reoccur bottom line put your money  
somewhere else cingular will not support it  
a good time  
ive seen soap operas more intelligent than this movie  
works like a charm it work the same as the one i got with the phone  
i wish i could enter negative values admins  
their onscreen chemistry critical to the entire film is genuine  
it handles some tough issues with dignity and grace and of course has shocking spoiler here  
like the other reviewer said you couldnt pay me to eat at this place again  
the phone crashed completely and now i have to get it replaced  
the servers went back and forth several times not even so much as an are you being helped  
main thing i didnt enjoy is that the crowd is of older crowd around mid s and up  
a very charming film with wonderful sentiment and heart

i think this restaurant suffers from not trying hard enough  
does not work  
this is a great little item  
if you are reading this please dont go there  
worst thai ever  
my boyfriend and i sat at the bar and had a completely delightful experience  
the plot was the same as pretty much every other cheap horror  
things that went wrong they burned the saganaki  
what makes this story different are the terrific production values faultless photograp  
hy composition and editing the terrific casting the underappreciated brian keith playi  
ng a bully teddy and vivid history  
it was just not a fun experience  
having to humour him just to get by and get through the day was so apt  
i could care less the interior is just beautiful  
the problem was the script  
soggy and not good  
the file browser offers all the options that one needshandsfree is great  
cheap but hey it works was pleasantly suprised given the low cost of this item  
the cocktails are all handmade and delicious  
i highly recommend these and encourage people to give them a try  
the design is very good  
pretty cool i would say  
does not charge the cingular att phone  
omit watching this  
this early film from future goremeister lucio fulci is a very good addition to the giall  
o subgenre  
never had anything to complain about here  
i gave it stars then and im giving it stars now  
yes its shiny on front side and i love it  
every time i eat here i see caring teamwork to a professional degree  
dont bother coming here  
food is way overpriced and portions are fucking small  
service was excellent and prices are pretty reasonable considering this is vegas and loc  
ated inside the crystals shopping mall by aria  
anyway this fs restaurant has a wonderful breakfastlunch  
i am very happy  
we have gotten a lot of compliments on it  
when i received my pita it was huge it did have a lot of meat in it so thumbs up there  
avoid this one if you can  
i had ordered a motorola data cable got a very well finished and working product  
there was a warm feeling with the service and i felt like their guest for a special trea  
t  
i thought it was bad  
talk about useless customer service  
the movie is not completely perfect but titta di girolamo will stay with you for a long  
time after the vision of the movie  
this little device has transformed my organizational capability and made my life a whole  
lot easier  
headset works great was packaged nicely to avoid any damage  
this movie suffered because of the writing it needed more suspense  
lame would be the best way to describe it  
youll love it  
this movie is bad  
so bad  
the film is way too long  
this is definitely one of the bad ones  
the movie i received was a great quality film for its age  
john wayne did an incredible job for being so young in the movie industry  
his on screen presence shined thought even though there were other senior actors on the  
screen with him  
i think that it is a must see older john wayne film  
i really dont see how anyone could enjoy this movie  
i dont think ive ever seen a movie half as boring as this selfindulgent piece of junk  
it probably would have been better if the director hadnt spent most of the movie showcas  
ing his own art work which really isnt that noteworthy  
another thing i didnt really like is when a character got punched in the face a gallon o

f blood would spew forth soon after  
jamie foxx absolutely is ray charles  
his performance is simply genius  
he owns the film just as spacek owned coal miners daughter and quaid owned great balls o  
f fire  
i love the camera its really pretty good quality  
check it out  
still it was the sets that got a big on my oyvey scale  
the battery is completely useless to me  
fantastic service here  
very little music or anything to speak of  
i dont think it would hold it too securly on your belt  
but this understated film leaves a lasting impression  
comes with a strong light that you can use to light up your camera shots and even flash  
sos signals seriously  
the staff is super nice and very quick even with the crazy crowds of the downtown juries  
lawyers and court staff  
i recently tried caballeros and i have been back every week since  
its a mediocre miserable hollow laughable and predictable piece of garbage  
i ordered albondigas soup which was just warm and tasted like tomato soup with frozen  
meatballs  
i immediately said i wanted to talk to the manager but i did not want to talk to the guy  
who was doing shots of fireball behind the bar  
great pocket pc phone combination  
but this movie really got to me  
reasonably priced also  
he came running after us when he realized my husband had left his sunglasses on the tabl  
e  
the camera although rated at an impressive megapixels renders images that fall well bel  
ow expectations of such a relatively high resolution  
the croutons also taste homemade which is an extra plus  
after i pulled up my car i waited for another minutes before being acknowledged  
first time there and might just be the last  
its worth driving up from tucson  
the seasonal fruit was fresh white peach puree  
the staff are also very friendly and efficient  
not impressed  
what a disappointment  
simply beautiful  
excellent dualpurpose headset  
im trying to return it for a refund  
i personally love the hummus pita baklava falafels and baba ganoush its amazing what the  
y do with eggplant  
i love my headset my jabra bluetooth headset is great the reception is very good and th  
e ear piece is a comfortable fit  
what a big waste of time  
this is so embarassing and also my ears hurt if i try to push the ear plug into my ear  
this pair of headphones is the worst that i have ever had soundwise  
it dit not work most of the time with my nokia  
the buffet is small and all the food they offered was bland  
the live music on fridays totally blows  
superb phone on a great network  
very displeased  
the owners are super friendly and the staff is courteous  
for people who are first timers in film making i think they did an excellent job  
hands down my favorite italian restaurant  
the cable looks so thin and flimsy it is scary  
clipping this to your belt will deffinitely make you feel like cents upandcoming  
works good  
ive had better atmosphere  
but the premise of the film was so ridiculous that the president of the us  
obviously there is a problem with the adhesive  
the service was extremely slow  
service was exceptional and food was a good as all the reviews  
about minutes of footage is wasted to show mediocre elderly actors awkwardly babbling o  
verwrought pseudosatanic gibberish corny enough to make a teen goth blush almost always

in olde english and sometimes in latin that may or may not be made up words  
i liked the patio and the service was outstanding  
fast service  
update went back for a second time and it was still just as amazing  
the characters are interesting and you want to find out more about them the longer the movie goes on and i think people will be surprised by who does and doesn't make it  
after two i felt disgusting  
stopped by during the late may bank holiday off rick steve recommendation and loved it  
i love the pho and the spring rolls oh so yummy you have to try  
if you do go see this movie bring a pillow or a girlfriend/boyfriend to keep you occupied through out  
the good cinematography also makes her and monica bellucci look very beautiful  
the ambiance was incredible  
for readers who have already seen one of miyazaki's films he is still in top form and made another worthwhile experience  
i guess that nobody at the network that aired this drabble watched it before putting it on  
great time family dinner on a sunday night  
i was disgusted because i was pretty sure that was human hair  
also were served hot bread and butter and home made potato chips with bacon bits on top  
very original and very good  
a very very very slow moving aimless movie about a distressed drifting young man  
i liked the way dustin hoffman's character was ready to do just about everything to stay with his son  
a disappointment  
no shifting no bubbling no peeling not even a scratch nothing i couldn't be more happier with my new one for the droid  
i have only had it for a few weeks but so far so good  
tmobile has the best customer service anywhere  
don't waste your time here  
beware this is not a trashy cult movie this is trash period  
looks good in the picture but this case was a huge disappointment  
they keep getting better and better this is my third one and i've had numerous palms too  
but the movie makes a lot of serious mistakes  
however this didn't make up for the fact that overall this was a tremendously boring movie  
this movie is also revealing  
but the service was beyond bad  
then i exchanged for the same phone even that had the same problem  
worst ever  
sooooo good  
the mega pixel camera being a part of a phone is reasonably good  
omelets are to die for  
times very bad customer service  
nevertheless yet another wonderful film from the great masters stable  
don't bother go to the store  
i really do recommend this place you can go wrong with this donut place  
my salad had a bland vinaigrette on the baby greens and hearts of palm  
for sushi on the strip this is the place to go  
great product for the price  
too bad you have to pay up to a month for the service  
i love being able to use one headset for both by landline and cell  
if you have not seen this movie i definitely recommend it  
the acting is fantastic the stories are seamlessly woven together and the dogs are splendid  
did a must rent view or see  
this movie is so mindbendingly awful it couldn't have even been created  
we aren't ones to make a scene at restaurants but i just don't get it definitely lost the love after this one  
the food is very good for your typical bar food  
okay i like to consider myself a fair critic so i'll give credit where credit due the creature effects were actually pretty cool  
ordered an appetizer and took minutes and then the pizza another minutes  
the sergeant pepper beef sandwich with auju sauce is an excellent sandwich as well  
it's an empty hollow shell of a movie  
i didn't realize how wonderful the short really is until the last two scenes  
a must study for anyone interested in the worst sins of industrial design

i really recommend this faceplates since it looks very nice elegant and cool  
no allergy warnings on the menu and the waitress had absolutely no clue as to which meal  
s did or did not contain peanuts  
never going back  
i had to wait over minutes to get my drink and longer to get arepas  
lifetime does not air it enough so if anyone knows what store sells it let me know because  
this is a must have  
frankly after cotton club and unfaithful it was kind of embarrassing to watch lane and g  
ere in this film because it is bad  
they know how to make them here  
avoid this establishment  
great brunch spot  
great product  
it is simple to use and i like it  
we waited for thirty minutes to be seated although there were vacant tables and we were  
the only folks waiting  
i ordered the voodoo pasta and it was the first time i had really excellent pasta since  
going gluten free several years ago  
the tables outside are also dirty a lot of the time and the workers are not always friendly  
and helpful with the menu  
perabo has a nice energy level and is obviously very comfortable in front of a camera  
wont go back  
the descriptions said yum yum sauce and another said eel sauce yet another said spicy ma  
yowell none of the rolls had sauces on them  
damian is so talented and versatile in so many ways of writing and portraying different  
characters on screen  
first the bathrooms at this location were dirty seat covers were not replenished just  
plain yucky  
if you want to wait for mediocre food and downright terrible service then this is the place  
for you  
this is an excellent film  
it fits comfortably in either ear the sound is clear and loud and the charge lasts a couple  
of days  
i dont have very many words to say about this place but it does everything pretty well  
he was terrible  
the chains which i am no fan of beat this place easily  
there is no plot here to keep you going in the first place  
i dont think you will be disappointed  
service sucks  
this review is long overdue since i consider a tale of two sisters to be the single greatest  
film ever made  
bad characters bad story and bad acting  
the headset fulfills my requirements so i am happy with my purchase  
i have been very happy with the and have had no complaints from any one regarding my sound  
quality on their end  
the warm beer didnt help  
stars for the brick oven bread app  
at first glance it is a lovely bakery cafe nice ambiance clean friendly staff  
hawaiian breeze mango magic and pineapple delight are the smoothies that i've tried so far  
and they're all good  
it was a drive to get there  
i bought this battery with a coupon from amazon and i'm very happy with my purchase  
i've dropped my phone more times than i can say even on concrete and my phone is still great  
eat knock on wood  
the plantains were the worst i've ever tasted  
this was a different cut than the piece the other day but still wonderful and tender as well  
as well flavored  
he deserves stars  
we will not be coming back  
how awesome is that  
if there is a wind it is completely useless  
my only complaint is the standard sound volume is a little low even when turned up to of  
  
go to place for gyros  
i hope this place sticks around  
this is the worst sushi i have ever eat besides costcos

the only thing i wasn't too crazy about was their guacamole as i don't like it pureed  
i've also had problems with the phone reading the memory card in which i always turn it on and then off again  
kind of flops around  
and considering the two of us left there very full and happy for about you just can't go wrong  
this place lacked style  
if someone orders two tacos don't you think it may be part of customer service to ask if it is combo or ala cart  
this product had a strong rubber/petroleum smell that was unbearable after a while and caused me to return it  
i have to use the smallest earpieces provided but it stays on pretty well  
don't buy it  
we started with the tuna sashimi which was brownish in color and obviously wasn't fresh  
too bad cause i know it's family owned i really wanted to like this place  
almost all of the songs in cover girl are old-fashioned and not very tuneful  
what did bother me was the slow service  
the only reason to eat here would be to fill up before a night of binge drinking just to get some carbs in your stomach  
overall i was not impressed and would not go back  
my experience was terrible this was my fourth bluetooth headset and while it was much more comfortable than my last jabra which i hated  
good price  
a good quality bargain i bought this after i bought a cheapy from big lots that sounded awful and people on the other end couldn't hear me  
i don't think we'll be going back anytime soon  
now we were chosen to be tortured with this disgusting piece of blatant american propaganda  
it works it is comfortable  
a truly truly bad film  
hopefully the director james cox can turn the short into a feature length film with the same cast or win us over with a whole new film  
dessert panna cotta was amazing  
unfortunately it's easy to accidentally activate them with the gentle touch buttons if you accidentally touch the phone to your face while listening  
the acting was decidedly wooden though no worse than a period universal b movie  
motorola finally got the voice quality of a bluetooth headset right  
i have been in more than a few bars in vegas and do not ever recall being charged for tap water  
not good by any stretch of the imagination  
artless camerawork endlessly presents us with the ugliest setting imaginable ie  
some great music and terrific scenery  
i rather enjoyed it  
what a mistake  
essentially you can forget microsoft's tech support  
you won't regret it  
it was not good  
also it's a real treat to see anthony quin playing crazy horse  
though the wind and the lion is told largely through the eyes of the son every member of the family can identify with one of the characters whether it be sean connery's noble brigand candace bergens feisty heroine john huston's wily john hay or steve kanalys spiffy radiant ruthless cando lieutenant roosevelt's big stick  
chinese forgeries abound  
highly entertaining at all angles  
cooked to perfection and the service was impeccable  
and it was boring  
the poor batter to meat ratio made the chicken tenders very unsatisfying  
how can that be the audio quality is poor  
after months screen just went black all of a sudden  
i don't think i'll be running back to carly's anytime soon for food  
i ordered this for sony ericsson w1 but i think it only worked once that's when i first used it  
it was a waste of my money  
awesome device  
even worse than ticker  
i believe that pitch black was done well

this is a stunning movie  
i had the mac salad and it was pretty bland so i will not be getting that again  
now the burgers arent as good the pizza which used to be amazing is doughy and flavorless  
i had heard good things about this place but it exceeding every hope i could have dreamed of  
fits comfortably came with three sizes of earbud tips  
hes a national treasure  
classy warm atmosphere fun and fresh appetizers succulent steaks baseball steak  
very bad performance plays angela bennett a computer expert who is at home all the time

the rest of the cast also play well  
not even a hello we will be right with you  
much better than the other ayce sushi place i went to in vegas  
bad fit way too big  
it is easy to turn on and off when you are in the car and the volume controls are quite accessible  
i love the look and feel of samsung flipphones  
the fat computer geek was unbelievable the bible thumper the badass girl who are these actors  
if you are looking for a good quality motorola headset keep looking this isnt it  
i could not stand to even watch it for very long for fear of losing iq  
for that its worth checking out  
good protection and does not make phone too bulky  
the stories were as unbelievable as the actors  
the vanilla ice cream was creamy and smooth while the profiterole choux pastry was fresh enough  
the folks at otto always make us feel so welcome and special  
i came over from verizon because cingular has nicer cell phones the first thing i noticed was the really bad service  
five star plus plus  
i would recommend it  
the chefs were friendly and did a good job  
director paul matthews who also wrote/directed the weak monster movie grim clearly doesn't know how to pace his films  
also difficult to put on id recommend avoiding this product  
really really good rice all the time  
these are certainly very comfortable and functionality is decent  
if that bug never showed up i would have given a for sure but on the other side of the wall where this bug was climbing was the kitchen  
i also didnt like the on button it felt like it would crack with use  
i bought two of them and neither will charge  
but it is great i would really recommend it  
from what my dinner companions told me everything was very fresh with nice texture and taste  
i was proven dead wrong by this sushi bar not only because the quality is great but the service is fast and the food impeccable  
it was a riot to see hugo weaving play a sexobsessed gay real estate salesman who uses his clients houses for his trysts with the flaming darren tom holland  
did not like at all  
everyone is treated equally special  
we waited an hour for what was a breakfast i could have done times better at home  
give it a try you will be happy you did  
i dont have to be an accountant to know im getting screwed  
it has a very good plot it holds your complete attention the acting is superb tom wilkinson was fantastic and emily watson was also very good  
ive had this bluetooth headset for some time now and still not comfortable with the way it fits on the ear  
a week later after i activated it it suddenly died  
that one didnt work either  
we recently witnessed her poor quality of management towards other guests as well  
i did not have any problem with this item and would order it again if needed  
excellent  
damn good steak  
probably never coming back and wouldnt recommend it  
the place was fairly clean but the food simply wasnt worth it

a drive thru means you do not want to wait around for half an hour for your food but somehow when we end up going here they make us wait and wait  
the only downside is the service  
excellent product i am very satisfied with the purchase  
the burger had absolutely no flavor the meat itself was totally bland the burger was overcooked and there was no charcoal flavor  
not even good for camp value  
the block was amazing  
our server was super nice and checked on us many times  
this is a beautiful phone  
defective crap  
the staff is always super friendly and helpful which is especially cool when you bring two small boys and a baby  
mobile phone tools are a must have  
mark my words this is one of those cult films like evil dead or phantasm that people will still be discovering and falling in love with years down the line  
this company charge me a restocking fee and still not given me my refund back  
their chow mein is so good  
ive had better not only from dedicated boba tea spots but even from jenni pho  
obviously they have a terrible customer service so you get what you pay for  
easy to use  
there is not a deal good enough that would drag me into that establishment again  
some highlights great quality nigiri here  
excellent hands free tool  
piece of trash  
the update procedure is difficult and cumbersome  
perfect for the ps  
although i very much liked the look and sound of this place the actual experience was a bit disappointing  
horrible  
the sets especially designed to work with the camera are amazing stylized beautiful and effective  
this is a very average phone with bad battery life that operates on a weak network  
back to good bbq lighter fare reasonable pricing and tell the public they are back to the old ways  
thank you for such great service  
this is my new fav vegas buffet spot  
nicest chinese restaurant ive been in a while  
julian fellowes has triumphed again  
the ambiance here did not feel like a buffet setting but more of a douchey indoor garden for tea and biscuits  
the acting is terrible and the writing is worse  
you cant relate with them hell you barely can understand them  
i enjoyed it  
i will not return  
duris has a wholesome appearance and gives a fine performance  
in a word it is embarrassing  
so flavorful and has just the perfect amount of heat  
definitely a turn off for me i doubt ill be back unless someone else is buying  
save your money ive had this item for months now  
the commercials are the most misleading  
he was very impressed when going from the original battery to the extended battery  
this is a great restaurant at the mandalay bay  
service stinks here  
clever and a real crowdpleaser this film still ranks among mickeys best films even after wonderful years  
special thanks to dylan t for the recommendation on what to order all yummy for my tummy  
great phone  
before i go in to why i gave a star rating please know that this was my third time eating at bachi burger before writing a review  
small sleek impressive looking practical setup with ample storage in place  
the waiter wasnt helpful or friendly and rarely checked on us  
and the drinks are weak people  
voice quality signal strength dropped calls  
the characters were all funny and had the peculiarity of not having a true lead character

r  
i had high hopes for this place since the burgers are cooked over a charcoal grill but unfortunately the taste fell flat way flat  
display is excellent and camera is as good as any from that year  
my sister has one also and she loves it  
for a self proclaimed coffee cafe i was wildly disappointed  
not a single employee came out to see if we were ok or even needed a water refill once they finally served us our food  
i would recommend purchasing the jabra jx series which works flawlessly with my moto go figure  
i got this phone around the end of may and im completely unhappy with it  
very tough and very short on flavor  
i always order from the vegetarian menu during dinner which has a wide array of options to choose from  
strike who wants to be rushed  
design flaw  
these headphones were a great find and i think they are perhaps the best purchase ive made in the last several years seriously  
a fly was in my apple juice a fly  
lot of holes in the plot theres nothing about how he became the emperor nothing about where he spend years between his childhood and mature age  
otherwise easy to install and use clear sound  
poor service the waiter made me feel like i was stupid every time he came to the table  
the management is rude  
this one is simply a disappointment  
these are the nicest restaurant owners ive ever come across  
its too bad the food is so damn generic  
the wind and the lion is well written and superbly acted  
i could eat their bruschetta all day it is divine  
ive tried several different earpieces for my cell phone and this jabra one is the first one ive found that fits my ear comfortably  
excellent service  
the only possible way this movie could be redeemed would be as mstk fodder  
it had some average acting from the main person and it was a low budget as you clearly can see  
not as good as i had hoped  
great headset very impressed h  
i came back today since they relocated and still not impressed  
this movie was kind of long in length but i enjoyed every minute of it  
first off the reception sucks i have never had more than bars ever  
shot in the southern california desert using his patent faux documentary style watkins creates a film like no other  
has been working great  
i didnt know pulled pork could be soooo delicious  
down the drain because of a weak snap  
we ordered the duck rare and it was pink and tender on the inside with a nice char on the outside  
on three different occasions i asked for well done or medium well and all three times i got the bloodiest piece of meat on my plate  
the ambience is wonderful and there is music playing  
i found this product to be waaay too big  
the music in the film is really nice too  
food was really good and i got full petty fast  
very disappointing  
regardless the film fails on most levels  
this wonderful experience made this place a muststop whenever we are in town again  
i will be back many times soon  
im a big fan of this series mostly due to anne rices style sensitivities and treatments

horrible horrible protector  
this phone tries very hard to do everything but fails at its very ability to be a phone  
the inside is really quite nice and very clean  
she carries the movie well  
personally i think it shows that people should learn to find a compromise them self without involving other people into issue  
dueto this happening on every call i was forced to stop using this headset

the casting is also horrible cause all you see is a really really bad actors period  
this was reflected not only in the cast but also in the belowpar script which borrowed much from the earlier classic  
i would definitely recommend the jabra btv for those who are looking for comfort clarity and a great price  
i wear glasses and it fits fine with them  
im a bit disappointed  
i dont know what the big deal is about this place but i wont be back yaall  
all i can do is whine on the internet so here it goes the more i use the thing the less i like it  
worked great  
i was looking for this headset for a long time and now that ive got it i couldnt be happier  
the charger arrived within the promised timeframe but it did not work  
i would give this television series a plus if i could  
very convenient since we were staying at the mgm  
this is a bad film with bad writing and good actors an ugly cartoon crafted by paul haggis for people who cant handle anything but the bold strokes in storytelling a picture painted with crayons  
all in all im quite satisfied with this purchase  
shrimp when i unwrapped it i live only a mile from brushfire it was literally ice cold the film deserves strong kudos for taking this stand for having exceptional acting from its mostly lesserknown cast and for the superintelligent script that doesnt insult the audience or take the easy way out when it comes to white racism  
i have had this phone for over a year now and i will tell you its not that great  
battery has no life  
it didnt make me scared horrified or make me sympathetic towards the characters it was simply annoying  
it has a great camera thats mp and the pics are nice and clear with great picture quality  
best breakfast buffet  
this allows the possibility of double booking for the same date and time after the first no im going to eat the potato that i found some strangers hair in it  
when a song could explain the emotions of the subjects better such as when jay adams unfortunate life was a subject of talk the song old man by neil young was played which evokes many emotions  
i would avoid this place if you are staying in the mirage  
i left with a stomach ache and felt sick the rest of the day  
ill put this gem up against any movie in terms of screenplay cinematography acting postproduction editing directing or any other aspect of filmmaking  
ill give this film out of  
we definately enjoyed ourselves  
it is a joy to use  
i really hope the team behind this movie makes more movies and that they will continue to do so in their own some kinda weird style  
ive only had my bluetooth for a few weeks but i really like it  
product is exactly as described  
to my disbelief each dish qualified as the worst version of these foods i have ever tasted  
bland not a liking this place for a number of reasons and i dont want to waste time on bad reviewing ill leave it at that  
this is simply the best bluetooth headset for sound quality  
this is a very right on case movie that delivers everything almost right in your face  
go watch it  
i just saw this film and i recommend it  
she ordered a toasted english muffin that came out untoasted  
it is indescribably the most annoying and idiotic show i have ever seen  
seriously its not worth wasting your or your kids time on  
now i know that i made a wise decision  
the black eyed peas and sweet potatoes unreal  
ive had better bagels from the grocery store  
this movie is so awesome  
trying to make a call on these is an exercise in frustration  
i was amazed at the quick arrival of the two original lg cell phone batteries and at a fraction of the price  
this item worked great but it broke after months of use

the staff are great the ambiance is great  
the script is bad very bad it contains both cheesiness and unethical joke that you normally see in rated r or nc movie  
virgin wireless rocks and so does this cheap little phone  
the film looks cheap and bland  
which are small and not worth the price  
not much seafood and like strings of pasta at the bottom  
great audio  
enough can not be said of the remarkable animation in this film  
i had about two bites and refused to eat anymore  
i just got bored watching jessica lange take her clothes off  
after charging overnight these batteries work great  
the desserts were a bit strange  
its pretty easy  
you get incredibly fresh fish prepared with care  
end of days is one of the worst bigbudget action movies ive ever seen  
dont waste your on this one  
the sound quality for the device is unacceptable unless you are in a really quiet area you almost hear nothing  
i have been very satisfied with this cell phone from day one  
food was so good  
this place is a jewel in las vegas and exactly what ive been hoping to find in nearly ten years living here  
the movie is littered with overt racial slurs towards the black cast members and in return the whites are depicted as morons and boobs  
you wont be disappointed  
prices are very reasonable flavors are spot on the sauce is home made and the slaw is not drenched in mayo  
that said our mouths and bellies were still quite pleased  
if there were zero stars i would give it zero stars  
the characters are interesting and you really care for them  
nice sound  
lasted one day and then blew up  
however there was so much garlic in the fondue it was barely edible  
definitely worth seeing its the sort of thought provoking film that forces you to question your own threshold of loneliness  
maybe its just their vegetarian fare but ive been twice and i thought it was average at best  
its kind of embarrassing to use because of how it looks and mostly its embarrassing how childlike the company is  
not to mention the combination of pears almonds and bacon is a big winner  
i had a seriously solid breakfast here  
the writers were smack on and i think the best actors and actresses were a bonus to the show these characters were so real  
the chips and salsa were really good the salsa was very fresh  
you will leave the theater wanting to go out and dance under the stars  
i searched the internet and found this one to be the best value  
the warmth it generates is in contrast to its austere backdrop  
the handsfree part works fine but then the car tries to download the address book and the treo reboot overall i still rate this device high  
this is a good battery and it got here really fast  
wont ever go here again  
it was a huge awkward lb piece of cow that was the gristle and fat  
i consider this theft  
it lacked flavor seemed undercooked and dry  
nice docking station for home or work  
the plot is nonsense that doesnt interest in the slightest way or have any uniqueness to it  
by far the best cheesecurd we have ever had  
dont miss it  
you share general loewenhielms exquisite joy in his partaking of the cailles en sarcophage even though you are just watching a movie but you do wish for just a small sample to savor  
try them in the airport to experience some tasty food and speedy friendly service  
everything was good and tasty  
i cannot believe that the actors agreed to do this film

a good commentary of todays love and undoubtedly a film worth seeing  
 think of the film being like a dream  
 adapter does not provide enough charging current  
 nice design and quality  
 disappointing  
 recommend with confidence  
 thats rightthe red velvet cakeohhh this stuff is so good  
 disappointed  
 good transmit audio  
 its really easy  
 very good though  
 i advise you to look out for it  
 earbud piece breaks easily  
 this if the first movie ive given a to in years  
 this phone might well be the worst ive ever had in any brand  
 id love to go back  
 great earpiece  
 i purchashed this for the car charger and it does not work  
 the wontons were thin not thick and chewy almost melt in your mouth  
 this is the phone to get for i just bought my sa and all i can say is wow  
 poor voice clarity  
 cute quaint simple honest  
 do not waste your money here  
 i have recommended it to friends  
 but in any case the best part is you can download these pictures to your laptop using ir  
 or even send pictures from your laptop to the phone  
 it is just the sort of pap that is screened in the afternoon to punish the unemployed fo  
 r not having jobs  
 i loved it it was really scary  
 the phone can also take great pictures and even video clips  
 nine out of ten for a truly lovely film  
 their research and development division obviously knows what theyre doing  
 all in all ha long bay was a bit of a flop
